

Big Glade Landscape, Dolores Meeting 2/17/'05

Study Group Comment Sheet Summary

Primary Uses	Outstanding Features	Concerns	Opportunities
4WD All Uses ATV BackPacking Car Camping Forest Restoration Grazing Hiking Hunting Motorcycle Multiple Uses Timber Harvest Traditional Uses Utility corridors Wildlife Habitat	4WD Trails Few Human Facilities Multiple Recreation Use Multiple Uses Natural Setting River/Streams Snowmobile trails Solitude Vegetation Views/ScenicResources Wilderness Wildlife Habitat Diverse terrain Diverse vegetation Fall colors Great scenery near river High quality grazing range Outstanding timber production lands	Access & Parking All Uses Altered Landscapes ATV Excessive Roads Forest Health Grazing Mixed Rec Use Conflict Motorized route Creation Motorized/Non Motorized conflict Multiple Recreation Oil & Gas Over Crowding Overcrowding Riparian degradation Timber harvest Urban Interface Vandalism Weeds & Invasive Species Winter Range ATVs are causing resource damage Developed facilities: less = less use more = more use Ease of access leads to overcrowding Eliminate "F" open areas Future restriction of motorized access Oil and Gas adverse impacts on ecosystem health. Proposed plateau creek dam Road and trail closures Timber harvest impact Timber stands unhealthy - fire danger Visible grazing development	Close Area DES. Sites Education Encourage Multiple User Groups to cooperate Forest Health Grazing Improved Trailhead Motorized Loop Routes Motorized route Creation Multiple recreation Use Multiple Use Multiple Uses Segregate Uses User Stewardship Utility corridors Wildlife habitat Designate as wilderness Easy access for large education oriented groups Eliminate "F" open areas Eliminate motorized uses Grazing expansion Grazing mitigates fire hazard, can improve habitat Make snaggletooth wilderness Many old logging roads make good loop routes Monitor recreation resource damage Monitoring riparian areas More enforcement More opportunities to experience non-motorized, wild areas Motorized access - create more opportunities No road closures no new roads Segregate motorized from non-motorized Should have Old Growth area North of Narraguinepp RNA Side canyons into Dolores should be wilderness Signage Stewardship - user education opportunities Timber thinning but not economic based harvest Water resource development

Report consists of all icons from all comment sheets and condensed versions of statements in the notes box of participant comment sheets.
