

Study Group Comment Sheet Summary

Primary Uses	Outstanding Features	Concerns	Opportunities
4wd	4wd trails	access opportunities shrinking due to private land development	designate as wilderness
backpacking	altered landscape	ATV's are causing resource damage	designate trails for motorized vs. non-motorized uses
hiking	cultural places	camping impacts on riparian areas	designated routes for motorized and mechanized use
horseback	geologic features	keep area open to multiple use	loop route opportunities
mining	high level of human activity	motorized use causing safety concern	manage forest for water quality
motorized summer	historic structures	overcrowding	more opportunities to experience non motorized wild areas
mountain climbing	multiple recreation use	over-use is causing resource damage	parking at trailheads needs expansion
multiple uses	multiple uses	people living in camping areas	restrict motorized use to main road only
non-motorized	natural process	4wd	stabilize historic structures
pleasure drive	natural setting	access & parking	close area; designate sites
RV Camping	peaks/summits	archeology	disperse uses
skiing	rivers & streams	ATV camping impacts	education
wildlife habitat	vegetation views	cultural degradation	encourage multiple user groups to cooperate
all uses	scenic resources	law enforcement	expanded parking
	wildlife	mixed rec use in conflict	forest health
		motorized in non motorized area	forest restoration
		multiple recreation	historic structures
		over crowding	improved trailhead
		snowmobiling	mining
		weeds and invasive species	motorized loop routes
			multiple recreation use
			multiple uses
			permanent facilities
			permit system
			segregate uses
			trail expansions
			user stewardship
			wildlife habitat
