

Study Group Icon & Notes Summary Matrix
Beaver Meadows Landscape, Columbine 4/21/'05

Primary Use	Concern	Opportunity
All Uses	Access & Parking	Encourage Multiple User Groups to cooperate
ATV	All Uses	Forest Health
Back Country Skiing	ATV	Forest Restoration
Forest Health	Forest Health	Grazing
Grazing	Grazing	Improved Trailhead
Hiking	Motorized in Non motorized area	Motorized Loop Routes
Horse Packing	Motorized/Non Motorized conflict	Multiple recreation Use
Hunting	Multiple Recreation	Permit system
Multiple Uses	Oil & Gas	Restoration
Snowmobiling	Over Crowding	Trail expansions
Wildlife Habitat	Riparian degradation	User Stewardship
Outstanding Features	Snowmobiling	Wilderness Addition
Altered Landscape	Weeds & Invasive Species	Wildlife habitat
Loop routes	Wildlife	Make east side part of the Piedra roadless
Multiple Recreation Use	Health-safety impacts of oil and gas development	Convert decommissioned roads to OHV routes
Multiple Uses	Proliferation of motorized use	Connect existing routes to make loops
Natural Setting	Loss of motorized access	Watershed restoration
Vegetation	Habitat impacts of oil and gas development	Charge user fees
Wilderness	ATVs causing resource damage	Keep grazing along with recreation
Wildlife	Impacts of snowmobiling on winter wildlife	Preserve wild areas and features
Wildlife Habitat		
Historic features along the stockway		
Major wildlife migration corridor		
Extensive road and trail access		
Good road access to high country		
Excellent views		
Deer and elk calving areas		
Wild and undeveloped area
