

River Protection Workgroup for the Animas River

Thursday, September 13, 2012

KENDALL MOUNTAIN RECREATION AREA

Time: 5:30 to 8:30 p.m.

Meeting Outcomes

- 1) To begin talking about findings the group would like to articulate in their final report

Meeting Agenda

- I) Introductions (5 minutes)
- II) Meeting Opening: review of outcomes and ground rules and RPW process principles and the charge to the Working Group (10 minutes)
- III) Review of the Workgroup's draft report outline (time to start thinking about the report!) -- Discussion (10 minutes)
- IV) Exercise in identifying underlying interests: (35 minutes)
Question: What are the underlying interests of those participating to date in the RPW for the Animas River? *Note: The solutions and ideas discussed should aim to address the underlying interests of all participants to the highest extent that is possible.*
- V) Break (10 minutes)
- VI) Mineral and South Mineral Creek (1 hour 30 minutes)
 - Very brief recap of work and discussion to date (current protections, values and ideas)
 - Are there values that are not adequately protected in the Mineral or South Mineral Area and if so, what are ideas for the future?
 - Determination where there is agreement, ideas for next steps and/or reflect a range of views
- VII) Other (10)
- VIII) Approval of last month's minutes (5)
- IX) Next meeting date (5)
