

Checklist of sensitive plant species with potential to occur on the San Juan National Forest in the Piedra River Watershed above Highway 160.

<b>Plant Species</b>	<b>Designation*</b>
<i>Aliciella sedifolia</i>	FS Sensitive
<i>Astragalus missouriensis</i> var. <i>humistratus</i>	FS Sensitive
<i>Astragalus proximus</i>	FS Sensitive
<i>Calochortus flexuosus</i>	FS Sensitive
<i>Carex diandra</i>	FS Sensitive
<i>Carex oreocharis</i>	Highlight
<i>Cypripedium parviflorum</i>	FS Sensitive
<i>Descurainia kenheilii</i>	Highlight
<i>Draba graminea</i>	Highlight
<i>Draba malpighiacea</i>	Highlight
<i>Draba porsildii</i>	Highlight
<i>Draba smithii</i>	FS Sensitive
<i>Drosera anglica</i>	FS Sensitive
<i>Epipactis gigantea</i>	FS Sensitive
<i>Eriophorum altaicum</i> var. <i>neogaeum</i>	FS Sensitive
<i>Eriophorum chamissonis</i>	FS Sensitive
<i>Eriophorum gracile</i>	FS Sensitive
<i>Festuca arizonica</i>	Highlight
<i>Ipomopsis polyantha</i>	FS Sensitive, ESA Endangered
<i>Lesquerella pruinosa</i>	FS Sensitive
<i>Machaeranthera coloradoensis</i>	FS Sensitive
<i>Parnassia kotzebuei</i>	FS Sensitive
<i>Physaria scrotiformis</i>	FS Sensitive
<i>Pinus ponderosa</i>	Highlight
<i>Pinus strobiformis</i>	Highlight
<i>Pseudotsuga menziesii</i>	Highlight
<i>Salix arizonica</i>	FS Sensitive
<i>Salix candida</i>	FS Sensitive
<i>Salix serissima</i>	FS Sensitive
<i>Sphagnum angustifolium</i>	FS Sensitive
<i>Sphagnum balticum</i>	FS Sensitive
<i>Townsendia glabella</i>	Highlight
<i>Townsendia rothrockii</i>	Highlight
<i>Utricularia minor</i>	FS Sensitive

\* Explanations of designations:

FS Sensitive: on USFS Region 2 (R2) Forester's Sensitive Species list as of May 2010

Highlight: SJPL Draft Land Management Plan determines that management actions may be necessary in order to prevent listing under the ESA, or to achieve multiple use objectives.

ESA Candidate, Endangered, Threatened = listed as such under the Federal Endangered Species Act.
