Multiple Recreation Use River, trails, skiing all good.

Multiple Uses Good hunting area and horses.

Multiple Uses Very scenic & and very suitable for a wide variety of non destructive uses.

Multiple Uses Multiple uses. Maintain all existing uses.

Multiple Uses Everyone has easy access.

Natural Process Would like to have access to public hot springs.

Natural Setting Cascade Creek, Mountain Base, Meadows, Wildlife - Trees, scenery, Vistas. Its all good.

Natural Setting Electra lake and Lake are features of the Tacoma Hydro Project and offers unique opportunities for recreation and wildlife / natural landscapes.

Natural Setting Beavers at spud.

Natural Setting The wild settings so near to access is the best quality of this area.

Natural Setting Cascade Creek area, especially well preserved and natural.

River/Streams Watersheds need protection from pollution and overpopulation.

Landscape: Animas Valley
Vegetation Diversity of vegetation.

Vies/Scenic Resources Spectacular views from atop the west side valley.

Vies/Scenic Resources The entire valley floor should be protected for it's views as so many people see it. Hermosa Cliffs is especially scenic.

Views/Scenic Resources W/ in all of the appropriate uses.

Wildlife The forest land around Tamaron is one of the few connections across the Animas Valley for wildlife.

Wildlife Habitat Very important wildlife corridor across highway 550 because FS land on both sides of road.

**Landscape:** **Beaver Meadows**

Multiple Uses Area can be used by all

Natural Setting Great scenery near river- should be snaggletooth WILDERNESS

Natural Setting To many people change things

Natural Setting Vistas, changes, geologic shifts.

Natural Setting I like the beauty and the nature

Natural Setting wetlands also

Natural Setting This is an extraordinary area

Other Beautiful area will good access

Other No new roads no road closures

Snowmobile trails Great snowmobiling

Vegetation Very good country for cattle grazing and wildlife

Vegetation Lots of good grasses for grazing benefits

Landscape: Big Glade
Vegetation  Good vegetation springs, water for stock ponds, rapid grads recovery

Vegetation  Very good grass water flat country

Views/ScenicResources  Always enjoy driving through & enjoying the wide vistas

Wilderness  These canyons that come into the Dolores should be included in Dolores Wilderness area

Wildlife  Area appears to be wildlife rich & should have very limited or no motorized traffic.

Wildlife  Wildlife is most outstanding aspect

Wildlife  Very popular for hunting

Wildlife Habitat  A huge landscape with diverse forests & great opportunity for solitude . Great views

Wildlife Habitat  Sharp tailed grouse recovery area* wildflower habitat s crucial

<table>

Monday, August 15, 2005
Loop routes  Good trail system started need more

Loop routes  Existing trails that are loop trails for mountain biking. Single track needs signage

Multiple Recreation Use  This area seems to have a lot of recreational opportunities. I would to see these continue

Multiple Recreation Use  Obviously this is tricky

Multiple Recreation Use  People need places to play and understand nature.

Multiple Recreation Use  There is such a great area for camping/hiking, four wheeling. We can all accommodate each other.

Multiple Recreation Use  Excellent opportunity for managing multiple use concept.

Multiple Recreation Use  Great area for camping trips

Multiple Recreation Use  Enjoy multiple use opportunities including hunting, hiking, biking, camping.

Multiple Uses  Landscape wide - keep these unless certain areas are very pristine or unique

Multiple Uses  Same

Multiple Uses  Good foraging recreation, hunting, & forest management

Landscape:  Boggy
Multiple Uses Have enjoyed this area in a multitude of ways

Multiple Uses Should be continued

Multiple Uses Easy to get to no facilities

Multiple Uses Because of year round access proximity to Dolores

Multiple Uses Nice Roads, easy access

Multiple Uses Varied use

Multiple Uses Great for multiple use

Multiple Uses this has many uses so we should all be able to use it, many renewable resources

Multiple Uses Lakes Close, Camping, grazing, fishing should all be available

Multiple Uses Boggy is a well roaded area, hunters, rec. use as well as timber and grazing

Multiple Uses Need to keep multi-use

Multiple Uses Easy travel in for scenic areas

Landscape: Boggy
Natural Setting  Again the road accesses a variety of scenic opportunities

Natural Setting  Views are ok except power lines

Old Growth  Top of house creek

Old Growth  Needs to be protected.

Old Growth  I love the old big tree up there

Old Growth  Great old growth near upper end of House Creek

Other  No road closures  no new roads

Other  Opportunities for more water storage to benefit habitat, wildfire and grazing because of the many drainages

Other  Wildlife corridor.  Important wildlife corridors

Other  Same as above ! This is my back yard and we can ride from the house for miles.

Single Track  Fast fun single track suitable for all levels of riders

Wilderness  House Creek is beautiful area and should be preserved.
We have such a great resource of wildlife and many great opportunities. Off road motorized vehicles will disturb the area and wildlife.

All great elk habitat

Wildlife is a real benefit that should be improved with the grazing increases.

I enjoy watching the beautiful wildlife habitat.

Loop routes  
Ideal for a loop route down the canyon and return on the south rim.

Multiple Uses  
Access to canyon - multiple use, biking, hiking, -wildlife observation , fishing.

Multiple Uses  
Keep access open

Multiple Uses  
Very fun and unique trails . Not to overcrowded and multi- use Rock climbing , access , single track trails Mtn. Bike & motorcylcle , ATV.

Multiple Uses  
Continue to have multiple use.

Natural Setting  
The Dolores River Corridor is an outstanding setting. It should be a wild & Scenic River.

Natural Setting  
Beautiful Canyon area. Occasional boating use & birding.

Other  
Wild & Scenic River status  Impeccable natural landscape in Dolores River Canyon that warrants wild & scenic status

River/Streams  
Great river to explore by bike car or boat .

River/Streams  
This canyon is unique - need to keep it pristine.

River/Streams  
River, canyon , Big Horn Sheep .

River/Streams  
Water is the key to landscape health. Needs to be more balanced allocation. Too much is being used up.

Landscape:  
Dove Creek
River/Streams  
River, Canyon

Vies/Scenic Resources  
Spectacular area. Pert of the Citizens Wilderness Proposal for Colorado (all along the river BLM)

Vies/Scenic Resources  
Beautiful canyon to drive thru.

Vies/Scenic Resources  
Dolores river overlook

Vies/Scenic Resources  
This is very scenic

Views/Scenic Resources  
Views of the canyon.

Views/Scenic Resources  
The lower is very scenic good loafing areas.

Wilderness  
The lower Dolores is de facto wilderness, due to the topography and lack of development in the river canyon. Particularly the bradfield to pump station section and below snaggle tooth.

Wildlife  
Big Horn Sheep area

Wildlife  
Sheep habitat/ eagles

Wildlife  
Big Horn Sheep in area

Wildlife  
There is a lot of Wildlife & fish in the area

Landscape:  
Dove Creek
Wildlife

Winter range for elk

Wildlife

Big Horn Sheep

Wildlife Habitat

Desert Big Horn habitat. Give them priority.

Wildlife Habitat

Along the river and adjacent lands are all excellent wildlife habitat.

**Landscape: Dry Creek**

<tr>
<td>Multiple Uses</td>
<td>Continue multiple uses</td>
</tr>
<tr>
<td>Multiple Uses</td>
<td>Encourage continued multiple uses Oil &amp; gas is good income, grazing is beneficial for environment - fuel reduction.</td>
</tr>
<tr>
<td>Multiple Uses</td>
<td>Encourage multiple uses for everyone.</td>
</tr>
</tbody>
</table>
Multiple Uses
Versatile terrain, suitable for many uses, some necessarily in conflict with each other.

Natural Setting
This is changing due to O&G development. To the extent possible you should try to preserve some of these areas in their natural character.

Natural Setting
A beautiful area.

Natural Setting
It is very pretty keep it as is.

Views/Scenic Resources
It is a beautiful area that should stay pristine.

Wildlife
Good winter range for livestock as well as wildlife.

Wildlife
Good wildlife habitat - winter range.

Wildlife
Viewing opportunities abound. Good hunting opportunity.

Wildlife
Wildlife is an important asset to the land.

Wildlife
Leaving area open adds value to our community compared to "Just anywhere else"

Wildlife
Gunnison Sage Grouse.

Wildlife
Critical deer & elk winter habitat, bald eagles, prong horn, wild horses.

Landscape: Dry Creek
### Wildlife Habitat
- Winter wildlife habitat.
- Sage Grouse, Sage Grouse, Sage Grouse.
- Gunnison Sage Grouse habitat.
- Overall range for many species including Gunnison Sage Grouse.

### Landscape: Durango

</table>
Loop routes  Aspen Loop trail - 4 corners trail club adopted and maintains trail great characteristics.

Loop routes  good area for loop trails

Loop routes  We use the Aspen Loop trail & the roads to ATV and Hike

Multiple Recreation Use  A great area for even more recreational uses.

Multiple Recreation Use  This area provides abundant opportunities for outdoor enthusiasts

Multiple Recreation Use  Proximity to two major roads an town makes it suitable for multiple rec. use.

Multiple Uses  Continuous multiple uses.

Multiple Uses  Good area for all uses - grazing, hiking, ATV use, timber etc.

Multiple Uses  There is good aesthetics & geological area & recreation and hunting & fishing.

Multiple Uses  Use for lots of activities- continue

Multiple Uses  Again this is an outstanding area for everyone to work and plan together.

Multiple Uses  Roads conducive to multiple use, terrain excellent for camping.

Landscape:  Haycamp
Multiple Uses  
Access for multiple uses is extremely important.

Multiple Uses  
This is historical for multiple use, with Logging, grazing, hunting, and bird watching.

Natural Setting  
striking natural area lost canyon and spruce water these should be restricted to non motorized recreation

Old Growth  
Also Protecting Cultural Resources

Other  
hunting

Other  
used hunting sticker on data sheet

River/Streams  
Protect the water quality and in stream flow

Snowmobile trails  
A lot of good snowmobiling roads and trails for all types of riders, Grooming has really increased the quality of riding to get to the better areas.

Vegetation  
But consider fuel reductions.

Wildlife  
need to keep for hunting and wildlife

Wildlife  
the area is abundant in wildlife and is a great hunting or viewing/photo area

Wildlife  
great wildlife habitat ?? restricted development. they may not be endangered but by allowing motorized commercial use the habitat becomes cut little by little

Loop routes

Existing trails off Hermosa Trail disperses traffic

Multiple Recreation Use

See Primary Use for the advantages of the great road accessing all the recreational possibilities.

Multiple Recreation Use

Lots of current roads and opportunity for more trails to make loops.

Multiple Recreation Use

Biking, hiking, and hunting & fishing are greatly used. Motorized use is limited the good reason and should remain restricted.

Multiple Recreation Use

Multiple use good -- Recreational, hunting, fishing, grazing. Limit Timber cutting

Multiple Uses

This area is extremely rich in many multiple resources especially commercial timber, important watersheds and dispersed recreation areas.

Multiple Uses

With some mining, some skiing, some grazing, some snowmobiles.

Multiple Uses

Another area close to and easily accessible to Durango. Excellent for multiple use.

Multiple Uses

Reasonable access on boundaries for general use yet the center offers more of a natural setting.

Natural Setting

Maintain natural landscape

Natural Setting

Beautiful scenery wildlife & vistas

Natural Setting

Landscape: Hermosa
Natural Setting
This is a great natural area. Large spaces, streams, mountains, vistas. And very close to Durango.

Old Growth
No logging!

Other
Outstanding is LACK of roads.

Other
The population of Colorado River Cutthroats

Other
Lots of different uses have coexisted and will continue with user education and respect for other uses.

River/Streams
Colorado River Cutthroat natives conservation

River/Streams
Watershed and the land between the shed.

River/Streams
Stream integrity is important to maintaining watershed processes & ecosystem sustainability

Snowmobile trails
No comment.

Snowmobile trails
Beauty.

Solitude
Because motorized is not allowed in the area

Solitude
There are so many canyons and ridges in this country, a person can easily find solitude and yet so close to Durango.
Vegetation  Fine grazing forage.

Vegetation  In the woods the beautiful woods large landscape

Vegetation  Good grass and timber.

Vegetation  Beautiful Wild flowers in area

Vegetation  No comment.

Vegetation  No comment.

Vegetation  Most of the area is unaltered by man. Forest and meadows.

Vies/Scenic Resources  Rugged area great views

Vies/Scenic Resources  Beautiful scenery

Views/ScenicResources  No comment.

Wilderness  For being so close to recreational activity this roadless area is an immensely valuable resource

Wilderness  Prime cutthroat areas keep primitive area retained would like to seed non motorized

Landscape:  Hermosa
Wildlife Great area for wildlife habitat with development encroaching in Hermosa Valley.

Wildlife No comment.

Wildlife Winter range.

Wildlife Hunting big game.

Wildlife All area is excellent for wildlife.

Wildlife Habitat No comment.

Wildlife Habitat They need places to be safe and maintain historical habitat

**Landscape: Lakes**

Multiple Recreation Use  Multiple use is essential to co existing cultures and beneficial use

Multiple Recreation Use  any kind of activity can be performed in this area. From hiking to fishing to enjoy solitude , etc. an area appealing to anyone & their interests

Multiple Recreation Use  This is truly a multiple use area- outstanding example of good recreation management in a fairly complex matrix of land ownership and use.

Multiple Recreation Use  This give alot of opportunities for multiple use and should stay that way.

Multiple Recreation Use  This area has many uses, including fishing, hunting, hiking, road vehicle use, and boating

Multiple Recreation Use  The reservoirs and proximity to wilderness area allows for multiple season and multiple recreation use.

Multiple Recreation Use  Major, major recreation center.

Multiple Recreation Use  Many different opportunities for recreation

Multiple Uses  Historically lots of Multiple use on this landscape

Multiple Uses  Rec. orientation strong

Multiple Uses  Excellent opportunity for all uses

Multiple Uses  This area is one of the most important to maintain multiple use for all our residents
Multiple Uses Many uses for all

Multiple Uses Lots of things to do with the family

Multiple Uses The number of roads and previous timbering have made this an outstanding area for hiking, biking, snowmobiling, and horse use.

Multiple Uses The easy access for recreational use & ability to be used for grazing and camping etc.

Multiple Uses Numerous uses in the area, hiking, fishing, wildlife viewing, campgrounds etc.

Natural Setting Beautiful sub alpine

Natural Setting Magnificent scenery, look north

Natural Setting The combination of lakes and forest is an excellent natural setting

Natural Setting One of the prettiest places for everyone to enjoy

Natural Setting Despite the fire, the area still looks good.

Natural Setting Beautiful place to save

Natural Setting Scenic view and wildlife resources

Landscape: Lakes
Natural Setting  Untrammeled natural setting

Natural Setting  This is an outstanding landscape

Natural Setting  It isn't natural but it has the look of a natural setting. Multiple use has worked well over the years

Natural Setting  Beautiful

Natural Setting  Should be managed to maintain the natural settings & minimize human impact

Natural Setting  Largely untouched, excellent opportunity to incorporate into Weminuche wilderness area

Natural Setting  The beautiful countryside combined with stream & creeks is outstanding

Natural Setting  Natural settings are the focal point as to why people go to this landscape

Natural Setting  This area has some wonderful settings for solitude and nature study

Natural Setting  Great horseback riding solitude camping diverse terrain

Natural Setting  Lake setting Canyons and cliffs views of Mountains, Streams and forest as well as open grassy areas are real assets here

Natural Setting  Quiet / fresh air

Landscape: Lakes
Natural Setting  Best natural settings in the Southwest

Natural Setting  Beautiful area, especially Runlet Park, Middle mountain Area

Natural Setting  Beautiful sub alpine

Natural Setting  The area has a great variety of lake to sub alpine areas

Old Growth  There is old growth up in this area

Other  Hiking  Maintaining healthy ecosystems including animal habitat

Other  Keep food production high priority

Permanent Facilities  Many permanent campgrounds & facilities

Permanent Facilities  Campgrounds & private adjacent facilities make this a popular destination for locals and visitors

River/Streams  The water opportunities are excellent at theist location

River/Streams  This area contains some major drainages of the southern Weminuche and northern SJNF. These resources are threatened by the current burned conditions

River/Streams  Water important for city use, rec use, weminuche H2O Rights? Rivers dynamic systems, require dynamic, evolving, prescriptions

Landscape: Lakes
River/Streams: Vallecito Creek, Pine River

Vegetation: Our vegetation will be healthier if harvested and kept disease and noxious weed free.

Vegetation: Excellent vegetation.

Vies/Scenic Resources: Exceptional day outing from Durango for hiking and horseback that takes you through varying elevations.

Wilderness: Access points at Lemon and Vallecito.

Wilderness: This area next to the Wilderness is equally worthy of that designation - and would be great to be designated as such.

Wilderness: Continuous with wilderness areas, this area should continue to be managed as wilderness primarily to sustain relatively undisturbed wildlife habitat.

Wilderness: Edges of Piedra Area - possibility for expansion of that area.

Wilderness: We are fortunate to have access to wilderness in this part of the country. There isn't enough of it. So many people have to get to experience it's solitude and beauty.

Wildlife: Serves as a great area for spring fall and some winter feed grounds for deer and Elk.

Wildlife: Great access to wilderness and trailheads.

Wildlife: I would like to see a decrease in grazing because of recovery from the fire needed.

Landscape: Lakes
Wildlife  
Good habitat for moose lynx, wolves, etc.

Wildlife  
Outstanding wildlife habitat

Wildlife  
Lots of Elk in mild winters on these south slopes, deer and bear habitat, cliffs with raptors

Landscape: Mancos-Cherry
Multiple Uses need to keep for all uses

Natural Setting Provides good views from Cortez area but existing multiple use should continue.

Natural Setting Outstanding Valley with surrounding views.

Natural Setting Wilderness aspect of this area important. (Weber Mnt. & Menefee Mnt wilderness study are nearby)

Natural Setting Beautiful areas that should be used and enjoyed by all.

Natural Setting Outstanding scenery both in Weber Canyon area and off the west Mancos road towards the Laplatas.

Other North of hwy grazing and beauty & wildlife/ south of hwy trails /wildlife & archaeology.

Other This is a multiple use area with different landscape and different agencies managing this area.

Snowmobile trails very good snowmobiling

Solitude see above

Vegetation Vegetation will be very diverse in this area

Wildlife The views of Mancos- Montezuma Valleys is spectacular from north of US 160 on Mancos Hill

Landscape: Mancos-Cherry
Wildlife is an outstanding characteristic of the entire area & needs to be improved upon.

</table>
Convienient Access & Parking
Multiple use

Cultural Places
Archaeological sites area outstanding in this area.

Lakes
The lake

Lakes
Manmade lake that creates a natural setting.

Lakes
The lake and the opportunity for camping and family recreation / vacation is provided by the lake and should be encouraged.

Multiple Recreation Use
Great area for development & for increased tourism

Multiple Recreation Use
Ideal area for loop trails

Multiple Recreation Use
Great trail expansion opportunities use old roads to and for upgrading trails

Multiple Recreation Use
Multiple use , hunting , fishing, trail riding.

Multiple Recreation Use
This has the potential for more uses for the rec. people.

Multiple Recreation Use
Lake is boating and fishing , while surrounding is hiking, horseback riding, hunting, trial riding etc.

Multiple Recreation Use
Expansions marinas, development, improvement

Landscape: McPhee
Multiple Uses Lots of different activities.

Multiple Uses Would like to encourage multiple use.

Multiple Uses Conducive for most types of uses.

Multiple Uses Great lake for boating

Multiple Uses Multiple use to accommodate all uses

Multiple Uses Lots of uses could be utilized.

Other Municipal water use

Other Need to keep grazing camping and rec.

Single Track Challenging terrain - limited motorized access is a definite plus

Single Track The trails are single track and have remained single track because of the limited ATV use. It is also a great view of the lake.

Single Track Fantastic single track - some of the best views in the area - Epic trail.

Snowmobile trails Winter snowmobiles don't hurt anything. No impact.

Landscape: McPhee
Vegetation  No management and old ponds are not holding water grass would be better if grazed elk would stay better.

Views/ScenicResources  More access to the lake view.

Wildlife  Winter range important to game and wildlife

Wildlife  Wildlife - boating & fishing

Wildlife  Many elk wintering each year east of the reservoir. Vital to maintain this.

Wildlife  Much wildlife in eastern part of the reservoir.

Wildlife Habitat  Good wildlife habitat west of Sagehen across the reservoir.

Multiple Recreation Use Area offers a wide variety of users and opportunities

Multiple Recreation Use The remote mesas provide a great recreational area that is very accessible

Multiple Recreation Use I enjoy this area for hunting sight seeing, mechanized travel, hiking and most traditional uses

Multiple Recreation Use Responsible multiple use is key

Multiple Recreation Use I think this is a great place to take the family to get away from people

Multiple Uses Watershed management for downstream uses

Multiple Uses Public lands all characteristic used for multiple uses

Multiple Uses Use all of Forest and BLM

Multiple Uses Benefit for all

Multiple Uses Also Livestock & other multiple uses

Multiple Uses To minimize the most benefits for all

Multiple Uses Keep open for all uses

Landscape: Mesas
Multiple Uses  Multiple use needs to be increased for timbering & wildlife/recreation

Multiple Uses  Keep public lands open for all uses

Multiple Uses  The area is very nice to be able to operate ohv

Multiple Uses  Great for many uses

Multiple Uses  All locations should be multiple uses

Multiple Uses  Public lands should support a variety of characteristics to meet the needs of a diverse public

Multiple Uses  Forests should be used & shared by everyone. Forest Health and sustainability always kept in mind.

Multiple Uses  Unique opportunities for recreation and industry to co-exist

Multiple Uses  There is something for everyone if people are willing to share

Multiple Uses  Multiple use means just THAT!

Multiple Uses  Outstanding grazing lands and other multiple uses

Multiple Uses  So all the people can use it for everyone's benefit. The geyser is very special

Landscape: Mesas
Natural Process  Multiple use is what I think

Natural Setting  Area & beauty should be enjoyed by everyone

Natural Setting  Stoner Mesa

Natural Setting  Great variety of natural features -all are great and important- forests' streams, mountains, wildlife, scenery, quiet

Natural Setting  Just leave it as is - Let everyone enjoy this place- horseback cattle, camping, picnicking etc.

Natural Setting  Excellent Hunting grounds

Old Growth  Many Faunal species rely on old growth aspen 50 cavity nesting birds, elk winterizing, etc. Lewis woodpeckers, purple martin, all wood peckers etc. SW CO old growth aspen is unusual & special . Also Fens

Other  ATV Great trails lets don't close any more trails.

River/Streams  Pristine Riparian Habitat

River/Streams  River running is becoming more and more popular. There is a concern with fences across the river I have almost been injured twice now. Someday someone will die because of this. It is a fixable problem as long as all parties can be responsible

River/Streams  Solitude wildlife, rivers, diversity, geologic features

River/Streams  One of the last areas with scenic watershed that is relatively unspoiled

Landscape:  Mesas
<table>

<td>Photography hobby, access is important</td>
</tr>
<tr>
<td><strong>Views/ScenicResources</strong></td>
<td>Fall Colors</td>
</tr>
</tbody>
</table>

**Landscape:** Mesas
Wilderness
- Wilderness or roadless for bear creek
- Potential extension of Lizard Head Wilderness
- All indigenous flora and fauna, Topography

Wildlife
- Preserve fauna and flora for quietude and regeneration of physce. Wildlife is steadily encroached upon by shrinking forests and sanctuaries. Less logging, less grazing; Pine trees do not regenerate
- Hunting, Fishing, Camping should be encouraged for future generations.
- We need to preserve habitat for wildlife/fish etc. Riparian areas really important
- supports a broad range of natural wildlife
- Require vegetation and habitat to support herd as well as undisturbed area for calving, support multiple use so long as wildlife needs are also considered.
- Priest Gulch stoner mesa health riparian areas, low populations

Wildlife Habitat
- Lots of Wildlife
- Priest Gulch stoner mesa

Landscape: Missionary

<table>

<tbody>
<tr>
<td>Few Human Facilities</td>
<td>No modified trailheads</td>
</tr>
</tbody>
</table>

Monday, August 15, 2005
Few Human Facilities The less is better

Geologic Features Entire area is of Geologic importance showing from Precambrian to recent rocks & landscapes

High level of Human Activity Accessible to people with many interests. accommodating to recreation list & multiple use

High level of Human Activity Accessibility makes this a prime area for many uses and conflicts can and do result

Historic Allotment cabin at least 80 to 100 years old

Loop routes Area available to a large number of people

Loop routes Single track and old roads = many opportunities for loops

Multiple Recreation Use easy access to natural setting from an urbanized area

Multiple Recreation Use The urban interface and extensive existing road system lends itself to developing a trail system

Multiple Recreation Use Widely used for many recreational activities

Multiple Recreation Use The area receives a strong demand for all types of recreation. Other uses like logging, grazing, other extraction should not compromise the quality of the area to provide recreational opportunities.

Multiple Recreation Use Landscape wide great multi use near urban areas

Landscape: Missionary
Multiple Recreation Use outstanding outdoor recreation close to town. many access points help distribute potential crowding i.e. better wild experience.

Multiple Uses North End - Upper elevations area- I value the characteristics which support dispersed recreation use.

Multiple Uses the area is close to population and can be enjoyed by many for many different things

Multiple Uses Multiple use allows folks with differing interests a way to utilize the forest

Multiple Uses Trees that are burnt should be cut

Multiple Uses My impression is that there are not many conflicts as for now . But it needs to be watched.

Natural Process Scientific study of regeneration after the fire. Since it's a relatively high use area, studying fire effects on veg / wildlife and recreation are important

Natural Process Since the area has a pretty significant burn area

Natural Setting One of the reasons why 550 north is the million dollar highway

Natural Setting A vast and beautiful area of open space , even more beautiful to watch re-vegetate

Natural Setting I think the overall beauty is great . We need to keep it available for multiple use. for everyone to benefit.

Natural Setting Great accessibility to a superb area. I have enjoyed driving to it, hiking it, camping, snowmobiling and just plain soaking up the views

Landscape: Missionary
Natural Setting

The ridge area is excellent beautiful place especially the north end which abuts the wilderness on the north and east sides.

Natural Setting

The scenic beauty of this area is highly visible to everyone traveling the highway, living in the area or moving through it.

Natural Setting

This area has beautiful natural setting throughout and one must do something to preserve it.

Natural Setting

Overall natural setting worth protecting- definitely not wilderness status -much human disturbance but setting is strongest character.

Natural Setting

I understand that this area is very beautiful.

Natural Setting

Missionary provides excellent natural setting for enjoying the forest.

Natural Setting

Beautiful natural setting same as #1.

Natural Setting

Overall natural setting except for the overgrazing, and timber harvest.

Other

Wilderness and Animas river valley watershed interfaces are the most important here. The integrity of both needs protection.

Other

Enjoy the hiking and biking offered close to Durango.

Other

Ice climbing in Haflin Canyon, 3-50’ pitches on Haflin Creek.

River/Streams

Allow for all water diversions through special use permits and ditch bill without imposing bypass flows.
River/Streams Watershed “healing” of primary importance. Careful management of grazing, road and trail maintenance no vehicles off designated routes

Snowmobile trails Trail use provided by Durango Snowmobile Club for multi use

Vegetation Burned timber and grass

Vegetation Excellent combination of wildlife and livestock living together

Vegetation Need to address the standing dead trees need to address the grazing.

Vegetation Varied depending on altitude, water supports variety of natural life

Vegetation The post burn environment has drastically changed the landscape creating large and open areas that make excellent grazing, and foraging for animals humans and livestock

Vegetation luxuriant vegetation before the fire. hopefully this will be allowed to restore itself

Vegetation Many losses due to fire

Vies/Scenic Resources scenic view wildlife viewing

Vies/Scenic Resources Offers tremendous scenic resources that requires a 2 day outing to achieve. Primitive setting offers solitude

Wilderness The northern end of Missionary Ridge with contiguity to wilderness has wilderness qualities and should managed the same

Landscape: Missionary
Wilderness: Not a prettier wilderness. Beautiful colors - close to town for viewing

Wilderness: This roadless area has wilderness characteristics

Wilderness: Grasshopper creek and lands draining down to Animas should be added to the Weminuche wilderness

Wilderness: Being next to the Weminuche, this would be a great addition to the wilderness area to continue to be roadless

Wildlife: Old growth spruce forest in the Grasshopper creek area deserves special protection

Wildlife: Exceptional habitat

Wildlife: Hunting, lots of wildlife in burn area

Wildlife: We use this area for hunting

Wildlife: I am interested in how this area can benefit winter elk herds

Wildlife: Rough enough for elk and deer cover water well distribution

Wildlife Habitat: diverse habitat missionary ridge fire needs habitat improvement for this area

Wildlife Habitat: This area represents a major corridor to the Animas Valley for deer & elk habitat. The multitude of snags is also crucial for cavity nesters

Landscape: Missionary
Wildlife Habitat All area but especially in the roadless area

## Outstanding Feature | Outstanding Note
--- | ---
Convenient Access & Parking | The area in general has great access for a variety of uses close to town.
Convenient Access & Parking | This area has good access from a population center with a diverse landscape.
High level of Human Activity | Many easy uses for modern Humans.
Multiple Recreation Use | Also convenient to town.
Multiple Recreation Use | Multiple non-motorized used in this area. Trail maintenance is key issue to heavy horse use.
Multiple Uses | Keep open to all uses.
Multiple Uses | Same as above.
Multiple Uses | Great Horseback / backpack / day hike / fish uses available and readily accessible.
Natural Setting | Views, wildlife, & outdoor recreation define the Pagosa area.
Natural Setting | Excellent area for outdoor education opportunities in cooperation with Hershey Ranch etc.
Natural Setting | Beautiful Scenery with Natural untouched mountains
Natural Setting | Every one building here look at the mountains.
River/Streams

With Urban pressure it is important to maintain healthy streams.

River/Streams

Fishing

River/Streams

Extremely beautiful river setting.

River/Streams

Turkey Creek is a special Creek - lots of pretty places along it.

Solitude

I enjoy quiet time.

Vegetation

Excellent vegetation for grazing. A lot of Bluestem. Good for deer & Elk in the area.

Vies/Scenic Resources

Very different landscapes and uses.

Wildlife

Outstanding wildlife populations in backcountry of Jackson Mountain, Quien Sabe, Turkey Creek. Excellent trout fishing in Turkey Creek.

Wildlife Habitat

This area encompasses some fine wildlife habitat which is not in competition with grazing.

Wildlife Habitat

Critical winter range for elk & deer.

Wildlife Habitat

Very good habitat mostly summer /fall

**Landscape:** Piedra

</tr>
</thead>
<tbody>
<tr>
<td>Few Human Facilities</td>
<td>There are few unspoiled areas in our country with as unique and magnificent</td>
</tr>
<tr>
<td></td>
<td>features as San Juan County They should be kept that way.</td>
</tr>
</tbody>
</table>

Landscape: Silverton
Few Human Facilities The most outstanding characteristic is the lack of human facilities and therefore it should be kept that way.

Geologic Features Alpine areas.

Historic Preservation of Historic Mining structures.

Historic We should be doing everything we can to preserve all of historic structures. Sites should be guarded from vandals, “pot hunters” etc. BLM & FS needs more rangers to patrol. Rangers should be on ATV’s or Dirt Bikes to cover around more quickly.

Loop routes More loop routes will effectively disperse recreation.

Multiple Recreation Use Because we are surrounded by the FS & BLM lands, we have so many opportunities to enjoy our mountains in many ways, on foot as well as motorized.

Multiple Recreation Use Camping- needing- ATV - winter snowmobiling.

Multiple Recreation Use There are already lots of existing roads & mines & trails so makes good multiple use area.

Multiple Uses Untracked snow, rivers, streams, peaks, summits, wilderness, wildlife, solitude, wildlife habitat, historic structures, geologic features, old growth, views, scenic vegetation, natural setting.

Multiple Uses Multiple uses I believe does work and does not segregate any special group.

Multiple Uses Untracked snow, rivers & streams, single track, peaks, x country skiing, wilderness, solitude, natural setting, vegetation, loop routes.

Multiple Uses Many uses throughout the area need to be done in a manner to respect each other.
Multiple Uses There are many beneficial uses of this landscape that provide many opportunities for surrounding communities.

Multiple Uses Mining, grazing allotments recreation all need to be preserved.

Multiple Uses I think our best characteristics for San Juan County is its recreation. & I am totally for multiple use.

Natural Setting At this point in our history, great & Primary value must be put on "nature" in contrast to "culture" if the former is at all to be preserved.

Natural Setting Preservation for the future.

Natural Setting The natural setting includes the wilderness, the peaks and the rivers, the historic structures. Non motorized use is an important aspect of enjoying the natural setting.

Natural Setting Outstanding scenery & recreational opportunities although the area has been altered by mining, any further alterations should be minimized. The entire area should be managed for recreational uses that do not cause resource damage.

Natural Setting Area wide

Natural Setting Preserving the natural beauty of the entire area.

Natural Setting What is spread about SJ County is the special scenery that is accessible through trails / roads to so many people.

Natural Setting Includes mountains, streams (clean) beavers and their dams, geology, wildflowers, forest

Natural Setting My main concern is that the landscape remains in its natural state - that any development has minimal impact.
Natural Setting I also enjoy solitude but what good would solitude be in a spoiled & exploited environment. The wilderness is also a necessary component of importance.

Natural Setting The natural alpine setting here is a knockout.

Natural Setting We are the envy of other countries and states because we have such beautiful natural areas. In some cases unspoiled. We'd like to keep it that way.

Peaks/Summits Beautiful Mountain scenery and unlimited recreational opportunities.

Peaks/Summits View of Peaks everywhere! In Silverton and all points around.

Solitude Although I understand that some people enjoy the thrill of testing their machines against the natural elements, I believe there is nothing more profound than enjoying the serenity of communing with nature in a truly wild place.

Vegetation Vegetation is threatened by overgrazing and unauthorized off-trail/road use by motorized recreationalists.

Views/ScenicResources Its quite scenic

Views/ScenicResources Outstanding Alpine terrain, with great historic value showing achievement of a society of hard rock miners.

Views/ScenicResources Views from highway are outstanding.

Views/ScenicResources It is a beautiful area, keep it that way continuing multiple use.

Views/ScenicResources Maintain great views via air quality

Landscape: Silverton
Wilderness

Preserve as much natural wilderness as possible.

Wilderness

The wilderness is the savior of our souls and should be maintained as is or expanded.

Wildlife

Nature

Multiple Recreation Use
Hunting, hiking, Mnt biking, fishing, snowmobiling

Multiple Uses
This area seems to work well with multiple uses. Grazing, forest harvest, recreation, hunting etc.

Multiple Uses
Good camping, hiking and riding.

Multiple Uses
good for multiple activities

Multiple Uses
This is a varied area with many recreational and other uses

Natural Setting
Great Views, open vistas

Natural Setting
Out standing features and old growth in the Dudley Sale

Natural Setting
Good view of continental Divide

Old Growth
The old growth area of Dudley is an important to preserve as an example of the type of Ponderosa forests that were here as compared with What is here now

Old Growth
Preserve old growth areas

Old Growth
Old Growth Pine

Landscape: Turkey
Old Growth Dudley remains to be precious old growth Aspen /Pondo

Snowmobile trails We really enjoy snowmobiling in this area

Snowmobile trails Some good snow on good years

Vegetation Excellent variety

Vegetation Outstanding and diverse vegetated area along the last 2-4 miles of FR 630, leading into monument park & bordering Piedra roadless area. Excellent wildlife habitat as well

Vegetation Excellent Ponderosa Stands Old Age and regeneration after a controlled burn.

Vegetation This area is perhaps the best ponderosa pine savannah on the forest. Mgt. of the area should encourage the perpetuation of this type of habitat.

Landscape: **Upper Dolores**
Natural Setting incredible

Natural Setting easy access for quiet wilderness experience is most important characteristic

Natural Setting it is beautiful up there

Natural Setting outstanding

Natural Setting keep it pristine

Natural Setting rivers and streams wildlife biodiversity old growth wilderness views

Natural Setting am I being redundant these are precious lands its easier to preserve than there are so many other things to think about than human service thanks you guys your doing a wonderful job

Natural Setting beautiful mountains and valleys

Natural Setting your go there to emerge yourself in a wild, natural place. I always take family and friends that are visiting here because of these features

Natural Setting beautiful terrain

Natural Setting some of the most beautiful landscapes in colo. lizard head wilderness area is spectacular

Natural Setting its the most beautiful and natural part of the san juans

Landscape: **Upper Dolores**
Natural Setting need a few more roads so people will not drive just anywhere in atv's

Natural Setting speaks for itself

Natural Setting many roadless areas/ wild lands

Other outstanding grazing lands and timber production

Other multiple use

Other multi use yes

Other ATV trails, a large area to ride lots of trails lots of wildlife viewing easy access

Other views need access for all

Other multiple use

Other maintain livestock

Peaks/Summits Lizard head

Peaks/Summits opportunities for everyone

Landscape: Upper Dolores
River/Streams: the upper Dolores drainage is one of the cleanest streams in Colorado. Anything to protect and limit camping to use grounds will help to protect, i.e., no dispersed camping.

River/Streams: clean water.

River/Streams: backcountry experience views.

River/Streams: good watershed for agriculture and all other uses.

Single Track: Calico trail is great. The work so far has really improved the trail but some more work is needed on the lower trail and more access out of the river valleys or keep the trails single track.

Snowmobile: Keep multiple uses as is.

Snowmobile: The best snowmobiling in Colorado.

Snowmobile: There are some wonderful areas to snowmobile in.

Solitude: Keeping an area safe for animals and people to enjoy and hike keep our lands from over-crowding with too many activities.

Vegetation: Quality of veg for grazing, trees, water will always be good with land sue.

Vegetation: Diverse vegetation.

Views/Scenic Resources: Great diversity.
Views/ScenicResources few obvious impacts other than mining which has historic value

Views/ScenicResources fall viewing circle drives meadows also black mesa

Views/ScenicResources the scenery is largely primitive and natural away from the road corridor

Views/ScenicResources very pretty country need to not build roads some grazing will keep fire hazard down and will help allow some water rundown

Wilderness lizardhead

Wilderness the lizard head wilderness and other roadless areas such as the sheep mountain yellow mountain areas are outstanding and should be protected from development

Wilderness lizard head wilderness area is incredibly special, wilson meadow needs to be monitored for abuse

Wilderness its so important to preserve this its unique and so important

Wilderness having a wilderness area set aside is imperative for wildlife habitat and preservation of the natural landscape

Wildlife outstanding wildlife

Wildlife Habitat wildlife areas can be improved by opening up dense oaks-good elk deer and fishing needs to be maintains

Natural Setting  Doing good

Natural Setting  One of the most beautiful places in the world.

Natural Setting  This area needs to stay as natural and wild as we can possibly keep it. (wilderness area's and forested areas south of Silverton.

Natural Setting  Some truly beautiful country & free to explore.

Natural Setting  Much of this area is still as natural and pristine as it came, except for trails and campsites.

Natural Setting  This area is probably the most beautiful in Colorado.

Natural Setting  The beauty is outstanding as is the lack of ???

Natural Setting  Leave the wilderness with maintained trails.

Natural Setting  Speaks for itself.

Natural Setting  Weminuche - this area is an incredible resource and should be protected at all costs. It is too valuable to be exploited in the future.

Natural Setting  The Natural setting should be preserved at all costs.

Peaks/Summits  The trimble / Columbine Pass area is truly on top of the world - The head of the Florida River with access into the Vallecito and Animas Drainages.

**Landscape:** Weminuche
Wilderness

Keep wilderness exactly that. "Wilderness"

Wilderness

Obviously

Wilderness

Largest wilderness in Colorado, keep it as wild as possible.

Wilderness

To me one of the most important issues is to maintain the existing wilderness areas & to look to expanding those non-motorized areas that are habitats for wildlife & undisturbed landscapes.

Wilderness

Emerald Lakes is within the designated wilderness area which prohibits motorized traffic and should be kept so.

Wilderness

Beautiful, pristine, Indian history.

Wildlife

Wildlife viewing/tracking best scenic views in the world.

Wildlife

So much to see Deer, Elk, Bighorn, Lion, bear.

Wildlife

Native pure strain Colorado River Cutthroat trout. Being used as an egg source to protect the strain on this species.

Wildlife Habitat

Winter range critical for Elk, Deer, Mountain Sheep etc.

Landscape:

Wild Oats

Geologic Features  The cliffs

Multiple Recreation Use  No comment.

Multiple Uses  Continue the multiple use of Wildoats.

Multiple Uses  No comment.

Multiple Uses  Good access. Close to town current multiple use.

Multiple Uses  This is an excellent example of a multiple-use area.

Multiple Uses  No comment.

Multiple Uses  Excellent that the many user groups are getting along pretty well.

Multiple Uses  Multiple use excessive, resulting in loss of quiet, resource degradation.

Natural Process  Still happening.

Natural Setting  Outstanding scenery for hiking and camping.

Natural Setting  Minimal disturbance, essentially a roadless area.
Natural Setting  No comment.

Natural Setting  Natural beauty and wildlife

Natural Setting  Area should stay roadless and natural for wildlife and quiet users such as hikers, climbers and wildlife.

Natural Setting  Great views and natural beauty

Natural Setting  There is evidence of human present, but it is still a beautiful natural area.

Natural Setting  Variety of peaks to forests, wildlife, natural history, natural processes.

Natural Setting  Mainly up in north end of landscape.

Natural Setting  No comment.

Natural Setting  No comment.

Old Growth  No comment.

Peaks/Summits  Its a beautiful View

River/Streams  No comment.
Single Track  Single track for hiking, biking and horse riding is superb!

Single Track  No comment.

Single Track  I'm not sure if this is the right location but I am referring to Hoffeins / Dry fork

Solitude  Solitude is self-explanatory.

Solitude  I like to get out here and enjoy the solitude.

Solitude  No comment.

Vegetation  Complements wildlife habitat.

Vies/Scenic Resources  Animas Overlooks is a pure Kodak moment

Vies/Scenic Resources  For so close to town, yet so far when you go in just a little ways, a great place to take visitors for a day of contemplation, river study & contemplation

Vies/Scenic Resources  Colorado Trail, JCl. Crk, Lightner Creek.

Vies/Scenic Resources  Roads & facilities are in place and could easily be increased

Views/ScenicResources  No comment.

Landscape:  Wild Oats
**Views/Scenic Resources**

Best views for such a short hike.

**Wildlife**

Hiking off-trail in here reveals the amount and variety of wildlife.

**Wildlife**

Sarengeti

**Wildlife**

Reintroduce wolves-bears (grizzly) for proper habitat management.

**Wildlife**

Outfitting and winter range

**Wildlife**

Maintain habitat.

**Wildlife Habitat**

Great wildlife area, especially off Colorado Trail.

**Wildlife Habitat**

applies to the forest service portion of the landscape

**Wildlife Habitat**

Mid elevation habitat for elk use of area by forest predators potential area for Lynx and Wolf

**Wildlife Habitat**

No comment.

**Wildlife Habitat**

No comment.

Natural Setting  Unfamiliar with the area

Natural Setting  View of Toner Mountain is impeccable from valleys

Old Growth  Some of the best Old Growth on the San Juan N.F. is in the area of Martinez Creek. This area should be managed as a RNA to protect and study this resource.

Other  Water resources are very high quality and should be protected

Other  Forest health  Varied terrain with some private land.

Peaks/Summits  The views in the north part of the Williams landscape are some of the most breathtaking in the district

River/Streams  All of them

River/Streams  Fishing opportunities. The pristine nature of the stream & rivers are invaluable to this area & to the drinking water that it produces

River/Streams  Important that all uses be viewed in light of the watershed- Water Quality, wildlife, vegetation scenic enjoyment and recreation depend on the health of the watershed

River/Streams  These are the areas greatest resources and should be managed as so- They affect recreation mostly and are adversely affected by traditional uses.

River/Streams  Fishing Wildlife

Solitude  Hardly ever run into anyone on the trail. Great to get away from it all.
Vegetation    Frosty Bladderpod

Vegetation    The Williams area is an outstanding area botanically with its diversity of plant life & habitats. The Williams Creek RNA has well over 200 species of plants which makes this area very special & important to the Williams Landscape

Views/Scenic Resources    Beautiful area with plenty of open areas for game to move around in a natural setting

Views/Scenic Resources    Variety of interesting landscapes

Views/Scenic Resources    Spectacular views from Piedra road all the way to the end.

Views/Scenic Resources    Many places in this landscape are grand and gorgeous - sure hope it stays that way.

Wilderness    Views and access to the Wilderness area.

Wilderness    Weiminuche Wilderness

Wildlife Habitat    Lake & Riparian offers variety of habitats and species that use it. Diverse Landscape

</table>
Multiple Uses Same

Multiple Uses Good viewing - hunting - skiing rec uses.

Natural Setting Beautiful Country

Natural Setting Wilderness characteristics

Natural Setting The whole area is a great place that should be protected from motorized use/abuse.

Natural Setting Mountains are beautiful, very special

Natural Setting Pretty Valley. East Fork of San Juan River.

Natural Setting The beauty of the area needs to be maintained.

Natural Setting Beautiful area with mountain scenery.

Peaks/Summits Beautiful Peaks to be enjoyed as scenic and also accessible by horseback riding, camping, hiking, Grazing on lower elevations.

River/Streams Upper end of a major watershed. Water resources must be protected.

Snowmobile trails Keep the snowmobiles concentrated in the same area as current.
Snowmobile trails  Easy access to great trail system and backcountry skiing.

Solitude  A chance to get away from the everyday strain. I feel free without regulations to ride through the forest alone to see the wildlife.

untracked Snow  The whole area west & south of WCSA and east of Hwy 160 from top of WCPass down to Treasure Falls.

Vegetation  The High Alpine & sub alpine areas of Wolf Creek have a great diversity of Flora - the Continental Divide Alpine Meadows & Wolf Creek road areas are particularly special.

Views/ScenicResources  Photography

Views/ScenicResources  Easy access for multiple types of views & scenery from river canyon (East Fork) to High Alpine pass.

Wildlife  Diverse habitat for wildlife throughout this region. Rich & diverse plant & animal communities

Wildlife  Lynx, snowshoe hare, great elk & deer

Wildlife  Riparian in conjunction w/ wide variety of elevations lends this area to the use of a wide variety of animals.
