**Outstanding Features**

- Grazing
- Horseback
- Improved Trailhead
- Law Enforcement
- More XC Ski & Hiking trails
- Mixed Rec Use Conflict
- Non Motorized Recreation Area
- Motorized in Non motorized area
- Permit system
- Over Crowding
- Riparian restoration
- Pet Impacts
- Science Collaboration
- Riparian degradation
- Trail expansions
- Snowmobiling
- User Stewardship
- Weeds & Invasive Species
- Wild & Scenic River
- Wildlife Habitat
- Wilderness Addition
- Winter Range
- Wildlife habitat
- Adverse impacts of camping on ecology
- An untapped area for winter recreation.
- Adverse impacts of domestic sheep grazing on wildlife
- Better trail signage
- ATVs are causing resource damage
- Employ a permit system to stop over use
- Don't want Llamas in the wilderness area
- Keep the wilderness open for grazing
- Grazing causing resource damage
- More horse trails
- Horses cause damage above treeline
- Reclaim old logged areas.
- Impacts of horse camps on resources and litter
- Reintroduction of wolves, lynx,
- Implications of water development at Emerald Lake
- Keep it a designated wilderness, always
