

# *“Dolores River Dialogue”*

Tuesday, July 2<sup>nd</sup>, 2013, 7 to 9 p.m.

Bi-Annual Meeting

DOLORES WATER CONSERVANCY DISTRICT MEETING ROOM,  
60 S. Cactus ~~ Cortez

## Agenda

- I. Introductions (5 minutes)
- II. Review of Agenda, Meeting Ground Rules, Facilitator, Marsha Porter-Norton, (5 minutes)
- III. Overview of Efforts on the Lower Dolores River, Marsha Porter-Norton (5 minutes)
- IV. Update on a DRD Project: Dolores River – Nonpoint Source Pollution Watershed Plan (also known as the “319 Watershed Plan”) (45 minutes), Jeff Kane, co-author of the plan (with Ann Oliver who will not be present)
  - What is a Nonpoint Source Pollution Watershed Plan?
  - How was the plan developed?
  - Why did the DRD take on this project?
  - What is the difference between this plan and the Implementation Plan for Native Fish?
  - What is in the plan? Does the plan mandate anything?
  - What are the next steps now that the plan has been submitted?
  - What is the role of the DRD in the future? What could the role be...?
  - Questions
- V. Update on the Implementation Team’s effort to redraft the management plan for Native fish? Peter Mueller, The Nature Conservancy (35 minutes)
  - What is the Implementation Plan for native fish? Why is this being done?
  - What are updates since it was first released in fall of 2012? How is the Implementation Team responding to stakeholder feedback?
  - How does this relate to the legislation to establish a National Conservation Area (NCA) as an alternative to Wild and Scenic River suitability?
  - What is the current status of the native fish in the Lower Dolores River (CPW data)?
  - Questions
- VI. Brief update on the Lower Dolores Plan Working Groups Legislative Subcommittee’s work on the National Conservation Area, Amber Kelley, Chair of the Legislative Subcommittee, (15 minutes)
- VII. Drought Forecast, Ken Curtis, Dolores Water Conservancy District (DWCD)
- VII. Adjourn
