
Complete Primary Use Icons and Notes For All Landscapes And Meetings

San Juan Plan Public Lands Plan Revision
Community Study Groups January-August 2005

Landscape: Animas Valley

Primary Use Icon	Primary Note
All Uses	This corridor is scenic provides recreation - hiking, biking, etc. etc.
Grazing	There is some of this feature in this area and I want that it continue to exist.
Hiking	Cascade creek - Hiking , skiing, Photography its all good.
Hiking	Wonderful trails both sides of the valley.
Hiking	Many areas, including Lime Creek have many trails good day hikes- the landscape as a whole is being heavily impacted.
Hiking	Major Hiking areas.
Horseback	Keep horse use open trails & especially trailheads.
Mountain Biking	Mountain bikes have to be somewhere so might as well stay where they have established a route.
Mountain Biking	Nice network of Hiking & biking trails.
Multiple Uses	This is a very good area for multiple uses as there area a lot of roads and trails already existing and should be used.
Multiple Uses	Maintain all multiple use including rec, & grazing.

Multiple Uses	Ski included with other multiple uses.
Multiple Uses	Multiple uses - easy access , supports a variety of uses.
Multiple Uses	Key recreational use area - allow good access and all recreational uses.
Multiple Uses	Hunting & Horses
Multiple Uses	Lots of recreational use for all parties.
Multiple Uses	As is appropriate, controls.
Municipal Water Use	Public service company of Colorado's Tacoma Hydro project has portions of it's project crossing federal lands.
Non Motorized	This area is close to Durango and has great areas for non - motorized uses both winter & summer.
Other	Tamarron Resort is one of the last good wildlife corridors in the Animas Valley.
Other	Forest access for winter & summertime motorized use.
Pleasure Drive	On Main roads . This is my main use , Photography
Pleasure Drive	It is the gateway to the most famous part of the SJ Mountains remain accessible by car.
Pleasure Drive	Animas Valley has always been an attraction for tourists from Urban areas to escape development and view a country setting & wildlife. Now that has been taken away in the east Animas Valley.
Traditional Uses	Recreation, Cattle, & Access should be maintained.
Utility corridors	Highway, electric lines & train Run through this landscape.

X-C Skiing Opportunity for expanded x-c ski trails - already and existing use.

X-C Skiing Great skiing at Durango Mountain

Landscape: Beaver Meadows

Primary Use Icon	Primary Note
ATV	Tons of access from previous activities, terrain is "moderate" in most areas.
ATV	On existing roads & designated trails no new roads.
Backpacking	Functions as an extension of the Piedra area.
Grazing	This landscape has had grazing permits, that are beneficial for all multiple use
Hiking	North east section of landscape good solitude- Same characteristics as Piedra special management area - Should be added to the roadless area since it has been untouched as such.
Hiking	Especially on the north and east parts.
Hiking	Beaver Meadows seems like a great hiking, horseback and biking, skiing area.
Hiking	Hiking into upper Piedra watershed.
Motorcycle	Great opportunity for loop motorcycle and, hiking, mnt. biking, trails
Wildlife Habitat	This sticker applies to the whole east side as it joins the Piedra area.

Landscape: Big Glade

Primary Use Icon	Primary Note
-------------------------	---------------------

All Uses	Grazing 4 wheeling, hunting
All Uses	Age makes an ATV my only way to some of the forest
ATV	This area close to home and easily accessed
ATV	Great area for atv & snowmobile winter
ATV	Keep roads open to all
ATV	Like to see more atv trails.
ATV	ATV trails
BackPacking	Area to be preserved for backpacking
Forest Restoration	Looks like the roads need to be brought under control - Restore
Forest Restoration	Landscape Wide
Grazing	Existing
Grazing	Grazing is very important and needs to be retained
Grazing	All grazing allotments should be maintained at full permitted levels. Contributes to healthy forests and wildfire control.
Grazing	All grazing , fuel fire control.
Grazing	Tradition & lowest impact on harvesting

Grazing	Grazing for many years. Excellent grazing areas.
Grazing	With access to existing trails and roads
Grazing	Big Cattle grazing area
Grazing	Grazing to keep fire danger down of our timber
Grazing	Grazing was the major industry and still can be used very well
Grazing	Ideal for grazing, plenty of surface water.
Grazing	Also hunting
Grazing	Need Beef
Grazing	This is excellent grazing and lumber country and should be used as such
Hiking	Minimal impact B/w roads better enforcement of limits of motorized travel
Hunting	Heavy hunter use and conflict with F travel designation
Motorcycle	Many areas to use . Semi - unique are for multiple uses and motorized new and existing trails
Multiple Uses	Must keep as much as possible open to multiple use.
Multiple Uses	There is a great opportunity to sustain all uses in this area. The existing uses seem to allow all users enough area to properly utilize the area
Multiple Uses	Grazing , logging should be carefully monitored / reduced if necessary. All monopolized traffic on designated routes only.

Multiple Uses	I firmly believe in multiple use on all public lands - use by every one
Multiple Uses	Hunting and rec.
Other	No road closures no new roads
Other	Already divided between residential subdivision state park lands and public land. Also oil and gas development . Balance these uses. Plate reservoir may be in the future.
Timber Harvest	Selective cutting emphasis on forest health & reduction of fires
Traditional Uses	Great area for a large amount of multiple use
Utility corridors	Plateau Creek Reservoir is proposed and should be allowed to be constructed & built. We need to develop water storage throughout the west
Wildlife Habitat	Low Human presence & moderate elevation
Wildlife Habitat	Low habitation , hunting areas, disturbed lightly
Wildlife Habitat	Enjoy hunting in area and observing wildlife
Wildlife Habitat	A huge landscape for diverse wildlife
Wildlife Habitat	This is good wildlife area and should be managed as such

Landscape: Boggy

Primary Use Icon	Primary Note
All Uses	Very easy to use close to town good roads

All Uses	Lots of diverse uses because of existing roads and open areas
All Uses	This area should be used and enjoyed by all. ATVs hiking, biking, etc.
All Uses	Area is well suited to biking, atv , hunting, 4wd
All Uses	ATV trails opportunities
ATV	Excellent place to ride ATVs
ATV	Most frequent use is motorcycle /ATV
ATV	I enjoy riding my atv and would like to be able to ride in the less mountainous terrain
ATV	All multi use trails
ATV	Trails are available already Disabled people should not be discriminated against> We love the Forest Always
ATV	This area has an "F" designation and is heavily use. Too much
ATV	Using these trails or expanding these areas would be great for off road vehicles
ATV	Great area for atvs
ATV	I would like to see more opportunities for atv loop trails
ATV	This is a great area for all kinds of road and trail use. Good roads & lively
Back Country Skiing	Like trails for x-c skiing

Car Camping	Perhaps they should be more permanent structures so there won't be more damage to the landscape
Forest Health	Good Luck!!!
Forest Health	Overcrowded pine forests
Forest Health	Landscape wide
Grazing	Grazing has been a major industry for the whole area.
Grazing	The right geography & elevation. Water already developed.
Grazing	Maintain grazing for healthy forests & to keep local economy healthy
Grazing	Grazing needs to be maintained while allowing management to improve other resources.
Grazing	Grazed since Taylor Grazing Act. Less areas were grazed than enclosed areas
Grazing	Due to the fire danger this is the primary use
Grazing	Great historically Grazed & least way of impacting
Hiking	Hiking minimizes impacts on delicate wetland areas
Horseback	Possible separation of motorized and non equestrian
Hunting	Needs to be accessible for hunters
Motorcycle	Add loops to existing and possible conflicts not be used

Mountain Biking	Need to have trails for Mountain biking that are closed to motorized bike and atv use.
Mountain Biking	Already has great areas
Mountain Biking	In winter x-c skiing It's scary up there during hunting season - to much partying & litter a heavy use area. The Bike trails are great.
Mountain Biking	Great fun Biking for all levels
Mountain Biking	Use Boggy Draw Trail / road systems 2-3 days per week in summers
Mountain Biking	Trails already exist & people are familiar
Multiple Uses	Encourage grazing for fire suppression as well as community economic health. Recreational use promotes tourism for the local business community
Multiple Uses	Keep the area open to all
Multiple Uses	Has been used in the past for multiple use.
Other	No road closures no new roads
Other	Want multi use
Pleasure Drive	This area dominated by the Dolores Norwood Road
Wildlife Habitat	Remote country few residents perfect for wildlife

Landscape: Cortez

Primary Use Icon

Primary Note

All Uses	General Metro Area
All Uses	Keep it multiple use
All Uses	This are is multiple use
ATV	Rec use.
Forest Health	No fuel reduction some is grazed some should be grazed.
Grazing	Agree with current allotment management for winter use cattle.
Grazing	Several Ranches at the base of Mesa Verde that utilize land for grazing.
Motorcycle	Motorcycling singletrack trails
Mountain Biking	Mountain Biking
Mountain Biking	This is the most popular mountain biking trail system around Cortez.
Mountain Biking	Phil's world mountain biking is well used.
Mountain Biking	Fun trail , Human powered realer coaster
Mountain Biking	Great Mountain bike trails, Attractive & good access.
Multiple Uses	The urban interface creates multiple use - use is impractical for management.
Multiple Uses	Multiple use unless araeologically sensitive.

Multiple Uses	Multiple use / recreation /open space for Cortez, surrounding areas.
Multiple Uses	High level of activities available for recreation - motorized & unmotorized.
Multiple Uses	Has been used for grazing and for rec.
Non Motoriezed	In Phil's world and bike trails south of Kerman Creek need to make it non-motorized (no motorbikes)
Other	Manage as a 5 area.
Traditional Uses	The traditional uses should remain.
Wildlife Habitat	Wildlife habitat, archaeological sites, open space.
Wildlife Habitat	Fairly protected area , good for wildlife
Wildlife Habitat	The southern BLM sections should be preserved as wildlife habitat
Wildlife Habitat	Winter deer
Wildlife Habitat	BLM lands are very important for wildlife. Patchy areas of BLM should not be proposed for disposal.
Wildlife Habitat	Important wintering areas and migration corridors for Mesa Verde's Wildlife population.
Wildlife Habitat	Patches of BLM are great wildlife habitat - wildlife viewing / hiking in habitat.
Wildlife Habitat	Wildlife and Recreation .
Wildlife Habitat	Wildlife needs and uses these isolated tracts

Landscape: Disappointment

Primary Use Icon	Primary Note
All Uses	All uses are presently in progress.
Back Country Camping	I rue the day in which we have no wilderness left in which to backpack and camp.
BackPacking	Lots of space to back pack in.
Grazing	Maintain Grazing Use
Grazing	Grazing cuts down on forest fires less dry tinder to burn.
Grazing	Keep grazing
Grazing	Appropriate area for livestock
Grazing	Wild Horse preserve , grazing allotments
Grazing	Keep the cattle there keep the fire hazard low.
Grazing	Grazing is a major part on the BLM & FS grounds
Grazing	Winter livestock grazing wildlife and wild horses herds.
Grazing	Traditional winter grazing area. Probably the best winter range in the state.
Grazing	Grazing is best use in my opinion.

Grazing	Encourage more grazing on BLM & Forest land to keep with fuels reduction and better forage development.
Hiking	I hike with my family here.
Hunting	Seasonal but large hunter days.
Hunting	Hunting
Multiple Uses	Keep Grazing
Multiple Uses	Multiple uses is what was entered for public lands
Multiple Uses	Multiple use for everyone's uses.
Traditional Uses	Keep traditional use (no development) - grazing- maintain wild large areas.
Wildlife Habitat	Managing for wildlife habitat will manage for the values in this landscape I appreciate when I hike , bike drive etc.
Wildlife Habitat	Remote appropriate use (wilderness)
Wildlife Habitat	Open space for wildlife and Quiet
Wildlife Habitat	WSAs should be protected or people will sue you like in Utah
Wildlife Habitat	Critical Wildlife habitat in this Landscape
Wildlife Habitat	Entire landscape is excellent habitat.
Wildlife Habitat	Winter Range for Deer & Elk . Year Round Pronghorn antelope

Wildlife Habitat As was explained this is a popular hunting area.

Landscape: Dove Creek

Primary Use Icon	Primary Note
All Uses	Grazing
ATV	Keep access open for ATV
ATV	Motorized travel through the Dolores Canyon
Fishing	Fishing & hunting & other recreation .
Fishing	Poor rafting conditions suitable currently only for fishing.
Forest Health	Keep grazing and fuel reduction effect on road use?
Grazing	Weeds need to be grazed and weeds controlled.
Grazing	River bottom needs grazed for healthy vegetation & to control weeds.
Grazing	Certain area have a good grazing system
Grazing	Grazing & recreation
Grazing	Area should be a theme 5 Little timber but good forage.
Grazing	This land is primarily grazing

Hunting	Good hunting
Hunting	Lots of hunting by locals for big game and some special hunts. Good area for mowing oaks to provide winter Elk habitat keeping them off farm lands.
Hunting	Great hunting.
Mountain Biking	This is a popular mountain bike ride to Slickrock
Multiple Uses	Keep road open from Pump Station to Disappointment.
Multiple Uses	Kayaking, scenic driving, ATV along river.
Multiple Uses	Continue multiple use.
Multiple Uses	Keeping areas open for sharing
Multiple Uses	If the majority of the people who promote wilderness study areas quite using the resources that they hate, we would have lower prices of many commodities - (gas,oil,beef,mining etc.)
Multiple Uses	Very fun motorized and unique beautiful trail. Do not change this area. Keep existing roads & trails multiple use.
Multiple Uses	Good for camping & four wheeling
Multiple Uses	Area is conducive to multiple uses especially Dolores River Canyon.
Nature Observation	Sightseeing -Great Views
Nature Observation	Riparian areas are critical for wildlife and wildlife enjoyment (non lethal kind)
Other	Water resources for economic use and recreation

River Running	Protect water flows for this use and solitude / wilderness aesthetic.
River Running	This is a beautiful canyon need to limit access to a small number of camping sites and motorized vehicles
River Running	Great River , also a great place to Jeep & Bike.
River Running	Also Camping
River Running	Great kayaking when the river runs high.
River Running	The Dolores River below McPhee is a river that should be restored and the riparian landscape restored and maintained as a prime recreation and wildlife resource.
River Running	River running on the Dolores below McPhee
River Running	The lower Dolores , when it runs is one of my favorite river trips in the whole world.
River Running	Bring back the flows.
Wildlife Habitat	Birds here that are specific to this area
Wildlife Habitat	Winter range in the canyon.

Landscape: Dry Creek

Primary Use Icon	Primary Note
All Uses	West Cone Road needs to be reopened by the State of Colorado.
All Uses	Multiple use for public lands is what was intended.

All Uses	Restore all usage access to west side of cone.
Grazing	Grazing can be a plus keeping forage drying and burning.
Grazing	Grazing appropriate.
Grazing	Winter/ spring grazing
Grazing	Favorable terrain - vegetation for grazing.
Grazing	This is grazing in conjunction with deeded, let landowners help patrol it.
Hunting	Seasonal but high number of hunter days.
Multiple Uses	Continue multiple uses , everyone should have their use.
Multiple Uses	Much oil & gas w/ some mining activity.
Multiple Uses	Encourage multiple use
Multiple Uses	Lots of mining & oil & gas opportunities. Hunting, Grazing, and wildlife exist amongst all of this activity.
Nature Observation	Ranching ,hunting , sightseeing.
Traditional Uses	Protect historic values rights and uses.
Wildlife Habitat	Overall range for deer elk & Gs Grouse
Wildlife Habitat	Outstanding opportunity to see wildlife - Few people.

Wildlife Habitat Gunnison Sage Grouse habitat.

Wildlife Habitat Managing for wildlife manages for all natural values & health of the landscape for all uses. Need to manage sage grouse habitat.

Landscape: Durango

Primary Use Icon	Primary Note
Car Camping	Good for families not far to go.
Grazing	Grazing is beneficial to forest lands. No use is poor management
Hiking	Most convenient hiking area.
Hiking	Animas Mountain - great "Urban" loop hikes, heavy use, but really convenient.
Hiking	Lots of hiking close to town . Sometimes leads to conflicts,esp dog bothering wildlife or other hikers.
Hiking	Urban Interface for Recreation
Hiking	Preserve wildlife areas (Perins Peak , Animas Mnt.)
Hiking	Hiking (and other recreational activities) that is close to town. Telegraph Hill, Perins Peak, Animas Peak, etc. are all crucial for town use.
Horse Packing	Elbert Creek area horse packing camping and hunting.
Mountain Biking	General Rec. Use.
Mountain Biking	Durango has built a reputation for single track that is accessible from town.

Mountain Biking	Biking (plus Hiking) very popular : Grandview Ridge (Big Canyon), Raider Ridge, Animas Mountain, Log Chutes, Dry Fork Road.
Mountain Biking	Great Mountain biking. - I know a lot of this is private land - would like to keep it undeveloped.
Multiple Uses	So close to urban area, open it up to more people uses.
Multiple Uses	Multiple use close to population centers might control excesses forest wide.
Multiple Uses	This area is close to Urban areas used for individual and family recreation.
Multiple Uses	Should be used for as many uses as possible since close to town
Other	Need more loop routes
Other	Multiple Use - Recreational , timber , grazing, continue grazing & allow timber harvest.
Pleasure Drive	Access from Durango by roads for pleasure driving is easiest.
Snowmobiling	The Haycamp - Lost Canyon - Pole Spring- Windy Gap- Spruce Mill areas all encompassing. Both summer & winter.
Wildlife Habitat	Perins Peak SWA is protected for wildlife habitat.
Wildlife Habitat	Animas Mnt. & Perins Peak & Surrounding BLM lands are very important for wildlife habitat especially in the winter.
Wildlife Habitat	Wildlife Corridor
Wildlife Habitat	Wildlife habitat, - Big game WR, Cliff nesting Raptors, songbirds, bats.
Wildlife Habitat	DOW considers Perins Peak a critical winter habitat area, particularly since the loss of Ridges Basin.

Wildlife Habitat Important winter area for Elk.

Wildlife Habitat Wildlife needs to be preserved in the area.

Wildlife Habitat Since there is no grazing I feel need to address the wildlife issue.

Wildlife Habitat Need as much close in land for wildlife as possible.

Landscape: Haycamp

Primary Use Icon	Primary Note
All Uses	again public land is for all to enjoy while protecting and respecting multiple use
All Uses	I enjoy jeering, 4Wheeling(ATV), snowmobiling, and camping in this area. The fall colors are gorgeous, and I believe it is big enough to accommodate all uses.
All Uses	Good for all uses
ATV	If any area seems ideally suited to ATViing it would be this one.
ATV	We atv 4wheel - camp/ hunt in this area
ATV	Keep trails open for ATV
Backpacking	keep area roadless to maintain back packing wilderness type opportunity
Forest Health	Don't over log or over road it or over graze it.
Forest Health	Whole Landscape could benefit from improved stand management

Grazing	A lot of grass and rough country that can be used by grazing
Grazing	Landscape has been used for grazing for years.
Grazing	Continuous all present allotments
Grazing	Grazing followed by timber.
Grazing	Seems well suited to this use.
Grazing	Low impact way of harvesting
Grazing	These locations have been used for livestock for years and have special uses.
Hunting	Needs to be kept open for hunters
Hunting	Area -wide usage for hunting & all activities connected with it.
Motorized Summer	Roads currently very travelable for summer use
Multiple Uses	Good area for all uses - grazing , hiking, ATV use, timber etc.
Multiple Uses	need to maintain as many use as possible
Multiple Uses	need to keep need more
Multiple Uses	This area should be used by everyone. ATV's, Hiking, horses, everyone together.
Multiple Uses	The land should be used by everyone , regulated to safety.

Multiple Uses	Accessible area for multiple use - have utilized area for hunting, camping, & biking.
Multiple Uses	This is widely used for everything.
Multiple Uses	We could lower fire danger by encouraging forest thinning & firewood collection.
Multiple Uses	The area of W Mancos to Haycamp - Multiple use motorized etc.
Multiple Uses	need multiple use too much wilderness restriction
Other	multi use atv and snowmobile no road closure
Other	Multiple use
Wildlife Habitat	Also General Forest Health

Landscape: HDs

Primary Use Icon	Primary Note
ATV	Want to see a GOOD! loop trail developed and maintained and all other areas OFF LIMITS! with enforcement
ATV	On existing roads only. No new roads.
BackPacking	Great wilderness aesthetics, solitude
Forest Health	It's roadless. Lets keep it that way.
Forest Health	Wilderness values

Forest Health	Area needs protection of its forest resources and recreational opportunities.
Grazing	Three grazing allotments
Grazing	The greatest opportunity here is for grazing.
Grazing	Grazed for up to 30 days early and then cattle move up.
Grazing	Excellent grazing
Grazing	Cattle are good on this landscape, very beneficial.
Grazing	Excellent Spring Range improve.
Hiking	Many good trails for hiking and biking.
Hiking	This is a roadless area with many Archaeological sites, mostly unidentified or studied, and many old growth areas.
Multiple Uses	Everyone must get along and work together
Multiple Uses	Multiple uses except oil & gas.
Multiple Uses	Grazing emphasis , limit wildlife numbers.
Multiple Uses	Great motorized and non motorized trails.
Nature Observation	This is an outstanding area to hike & observe wildlife from Horned Lizards to birds of Prey.
Non Motorized	All areas of the HD's that are currently roadless should remain Roadless.

Non Motorized	Have used area for hiking, backpacking, horse riding etc.
Non Motorized	No Roads ORV
Other	The HD area is in a large part roadless and therefore should be considered for wilderness.
Other	Wilderness roadless no oil & gas development.
Snowmobiling	I use the road and trail system for snowmobiling.
Wildlife Habitat	Important winter wildlife area.
Wildlife Habitat	Roadless area must be preserved.
Wildlife Habitat	Excellent winter range for wildlife
Wildlife Habitat	Wildlife Winter Range Packing- hiking also included.
Wildlife Habitat	Important wildlife habitat especially winter big Game
Wildlife Habitat	Critical wildlife movement corridor. Hunting, primitive recreation .
Wildlife Habitat	Major wildlife area which also allows grazing.
Wildlife Habitat	This icon is I could get to "Pristine Habitat" . I realize that the whole landscape isn't in this condition but I appreciate those areas that are .
Wildlife Habitat	Has lots of animals and some great habitat. Wintering grounds for wildlife.
Wildlife Habitat	Keep this area as wid as possible

Wildlife Habitat Especially in the winter . Also hiking & horseback

Landscape: Hermosa

Primary Use Icon	Primary Note
All Uses	Excellent motorized access for both winter/summer use. The hiking, biking, dirt-biking, ATV opportunities are excellent. Hunting is great. Camping.
Back Country Camping	Area should be available for backcountry camping for hikers, climbers, cross-country skiers.
BackPacking	This is an amazing wild area.
Backpacking	Colorado trail connecting trails to kennebec pass
Backpacking	Great access to Wilderness area backpacking- dollar lake and beyond
Backpacking	Wonderful undisturbed beauty for backpacking
Fishing	Hermosa a and east for of Hermosa feeder streams
Fishing	Fly fishing for native trout populations
Forest Health	Keep it beautiful and reduce use.
Forest Health	Wildfire may be a concern in this area with subsequent flooding.
Forest Health	Forest health (not the Healthy Forests Initiative) is important to sustaining the watershed and stream system.
Grazing	Grazing is a traditional use which has served in good stead over most of the area.

Grazing	Grazing should be continued.
Grazing	Maintaining opportunity for local ranchers to be able to utilize this area.
Grazing	Grazing is an essential element in the health of our ag community.
Grazing	Should be "5" for the most part.
Grazing	No need to change.
Grazing	Growing food is a public good.
Grazing	No comment.
Grazing	Great grazing areas.
Grazing	Keep grazing in this area
Grazing	Excellent forage availability increase in L/S numbers recreation uses have been ---
Grazing	It is absolutely a great range resource as long as the permitted employs full-time riders to manage the herd and protect the meadows/riparian areas the cattle tend to draw to.
Hiking	Great hiking trails.
Hiking	I like to hike in these areas.
Hiking	Great trails, beautiful place.
Hiking	Good hiking. Lack of roads! Quiet and nice to have an area basically non-motorized.

Hiking	Basically southern and southwestern areas and northern areas.
Hiking	Limited road expansion
Hiking	Upper Hermosa Creek, Good trails, out standing landscape
Hiking	Wonderful , historical accessible primitive hiking possibilities leave no trace
Horse Packing	No comment.
Horse Packing	Keep area non motorized , even responsible motor use drives off equestrians
Horse Packing	No comment.
Horse Packing	No comment.
Horseback	No comment.
Hunting	Strong hunting use area
Hunting	Big-game hunting across entire landscape - archery, muzzle-loading, regular rifle.
Motorcycle	Very much a multi -use area
Mountain Biking	Nice long mountain bike rides
Mountain Biking	Recreational mountain biking main Hermosa Trail and all side trails. Nationally recognized trail system Very important multiple use ok.
Mountain Biking	This is an awesome ride as everyone knows

Mountain Biking	MTB popular & cherished : corral draw, west cross, Hermosa Creek , Dutch Creek, Pinkerton, flag, Jones creek . Singletrack fantastic
Mountain Biking	Excess bike use on T??? Creek and Hermosa Creek - prevent hiker use.
Multiple Uses	Especially on the trails and especially the main Hermosa Trail - hikers, bikers, horse, mountain bike.
Multiple Uses	Is very good multiple-use area currently with roads already existing.
Multiple Uses	Existing roads especially in north end of landscape, often many opportunities for timber harvest and summer winter recreation
Non Motorized	Hermosa Creek User conflict with motorized.
Non Motorized	Hermosa creek trail be made non motorized.
Other	Hiking, mountain biking, hunting (recreation).
Other	Wilderness experience.
Snowmobiling	Is good all-around use.
Wildlife Habitat	Beautiful place with varied elevation ideal for wildlife habitat.
Wildlife Habitat	Unroaded wildlife area.
Wildlife Habitat	In Central part
Wildlife Habitat	No comment.

Landscape: Lakes

Primary Use Icon	Primary Note
All Uses	Rec/ water based very attractive)
All Uses	The lakes area seems good for general recreation. I don't think it is a good area for OHV use
All Uses	All around Vallecito, heavily used , water ATV Horseback, etc.
All Uses	Summer homes , scenic driving, hiking, horseback riding,xc skiing, Fishing, hiking,irrigation H2O
All Uses	Recreational use sacrifice area- Diversity of opportunity & existing infrastructure make this an obvious area to allow heavy recreational use
All Uses	Multiple uses for grazing & recreation including, horseback riding, packing, fishing, camping, etc.
All Uses	A wide variety of current and past uses; recreation, industry, grazing etc.
All Uses	This area has many activities proper trail maintenance is key
Back Country Camping	When working on a trail crew in this area I found it to be extremely popular destination for local and out of state backpackers. & horseback packing-in & camping
Backpacking	Pine River & Vallaecito Creek offer excellent opportunities to access pristine Wilderness to the North and East
Car Camping	I selected this because there are alot of camping opportunities
Commercial Use	This area has much commercial use unassociated with recreation -- Out fitters , boating operators, development that feed many people onto trails . Heavy population influence heavy use. This is the trail head area for major entrance into
Fishing	The primary use here is actually irrigation

Fishing	Vallecito & Tributaries are excellent fisheries. A very valuable community resource
Fishing	This needs to be preserved for local and family use
Fishing	I don't know much about the area but I have friends who love fishing Vallecito
Fishing	Great fishing in the lakes region- maintain healthy drainages from weminuche -it is municipal water right? address sediment from timber, invasive species, water levels etc.
Forest Restoration	Forest restoration in all area affected by the fire in 2002
Forest Restoration	All areas burned by the fire
Grazing	App * grazing permits in progress on this landscape in conjunction with lots of multiple use
Grazing	Grazing can benefit the environment
Grazing	Grazing is essential to viability of the AG community in SW colorado. The survival of many family farms & ranches depend on these allotments. Without them many operations in the private lands will be sold creating the loss of open space
Grazing	I run cattle in this area. It is excellent for grazing
Grazing	Allotments need to be continued
Grazing	Several allotments here
Grazing	Between 7000 ft. & 10,000 ft. elevation
Grazing	Where livestock are grazed
Grazing	Keep food production a priority

Grazing	Grazing is very important to the health of the forest
Grazing	Grazing overall for watershed protection
Hiking	Great region
Hiking	Hiking from Kenneled Pass southward to peaks (Gibbs / Madden
Hiking	This are is a primary resource for hiking because of it's proximity to town . Camping & backpacking are a part of that
Hiking	Trailhead to Alpine
Hiking	Have hiked, backpacked and backcountry camped. Easy access , natural beauty , away from the hassle and stress of "town" work etc. important to try and blend into the woods , water, air and quiet
Hiking	Wilderness access in all seasons (eg. snowshoeing)
Hiking	All areas around lakes make for excellent hiking
Hiking	Primarily the Weiminuche access points are of concern and most use for me . Compatible uses adjacent to wilderness boundaries.
Hiking	Using the numerous trailheads for hiking , especially into the wilderness
Hiking	Quiet trails are a treasure and respite for busy lives... stress reducer for a fast paced society.. wonderful way for families to get together exercise and spend time together
Hiking	A major use is trail heads into the backcountry. Should be managed for non - motorized use.
Hiking	Many trailheads into the Wilderness X country skiing on Vallection in the winter also a fantastic resource
Hiking	Need to protect reservoirs for irrigation & coming municipal water use. As well as my primary use -Hiking

Hiking	Access to trails -wilderness - back country solitude
Hiking	Many people prefer hiking this area
Horse Packing	We have an outfitting business in the area
Horse Packing	This is the best access to the Wilderness
Horse Packing	This is the best access to the wilderness
Horseback	Good potential for horse trails non motorized barred by river crossing
Horseback	In all of the upper reaches horseback, hunting & outfitting is popular and greatly used.
Horseback	It does not come any better than this for a pristine
Horseback	Keep areas open to multiple use
Horseback	It doesn't come any better than this for pristine outdoor experience. No motorized activity is helpful
Motorcycle	Middle Mountain / Tuckervill trail / San Juan Trail riders proposal
Motorized Summer	The most prevalent use of the "lakes landscape" is probably the summertime use of motorized watercraft
Multiple Uses	So close to people. Great for grazing,, good access for timber harvest, fishing is good too.
Multiple Uses	Recreation should not be primary use
Multiple Uses	Used for grazing could be for logging & recreation of all sorts

Multiple Uses	This area is well used as a multiple use area . There is lot of cooperation here.
Multiple Uses	Continue to manage for multiple uses
Multiple Uses	Diversity and Multiple use go hand in hand
Multiple Uses	This area is and can be used by many
Multiple Uses	The land is as varied and the historical uses than multiple use is only practical
Multiple Uses	Area is very diverse & roaded . Well suited to a wide array of multiple uses, but uses should not cause resource degradation
Multiple Uses	Water sports are add to all other uses- Ag & recreation
Multiple Uses	Multiple use - watershed management
Municipal Water Use	Allow existing water diversion structures to continue diversion (irrigation/ municipal) without imposing by pass flows
Municipal Water Use	One way or another the whole area is affected by water use
Nature Observation	Nature , birds , wildlife plentiful - too much recreation especially motorized boat . Motorized vehicles decrease wildlife viewing
Non Motorized	Non motorized areas very important
Non Motorized	Non motorized recreation use - x-country skiing- hiking- horseback riding
Non Motorized	Lots of roadless area used for backcountry recreation
Other	This is obviously multiple use area . This primary importance is that it serves as access and interface as to what I would term the "Crown Jewel" of the SJNF: the Weiminuche wilderness

Power Boats	Mostly boating with some fishing
Power Boats	Boats in municipal water ? how safe is that?
RV Camping	Good spots for family camping
RV Camping	Many Camping opportunities for local and tourists
Snowmobiling	One of the safest and easiest. Accessible for the enthusiast
Snowmobiling	Excellent area for winter use Groomed trails / marked trails provide excellent access for multiple winter use. great summer hiking
Timber Harvest	I think we need more timber harvest to keep fire danger down and a healthier forest.
Traditional Uses	This area is replete with traditional uses, including grazing, fishing, hiking, lake recreation, x country skiing, water supplies, horse packing, biking.
Wildlife Habitat	Mud Spg Creek drainage is outstanding roadless wildlife habitat
Wildlife Habitat	The frogs & other amphibians up at lake Eileen deserve special consideration, seeing as how amphibians allover the world are dying out.
X-C Skiing	Vallecito Lake Groomed X-C ski area is highly utilized & valued use.
X-C Skiing	Excellent x-c track . must be preserved and additional area
X-C Skiing	-This is a fabulous track system that we have - weather permitted- I use this area more in the winter season because of the track system -keep it non motorized in the winter.
X-C Skiing	Wonderful trail system groomed by volunteers
X-C Skiing	Enjoy being able to bring the dog along while x-c skiing.

Landscape: LaPlata

Primary Use Icon	Primary Note
Back Country Camping	Unusually good camping area near Kennebec Pass
Back Country Skiing	X-C close to town good access range of ability possible
Back Country Skiing	Good skis
Hiking	Great canyons and hills
Hiking	The higher areas not being mined are now used for hiking
Hiking	This area is a beautiful place to hike & enjoy some quiet time
Hiking	Area is very steep . Best use for the area is hiking
Hiking	Hiking Mnt Biking
Hiking	Hiking and Mnt. Biking - motorized use restricted to main roads
Mining	Patented mining claims still used
Motorized Summer	throwing all the motorized use into a fairly limited area - results highly impacted area
Motorized Summer	Great access to Colorado Trail
Mountain Biking	Colo. Trail La Plata Canyon jeep road highly utilized and valued for MTB use

Mountain climbing (Peak Baking)	All peaks along La Plata Mountains
RV Camping	Lots of camping & campgrounds
RV Camping	Keep camping to existing campgrounds so that misuse of landscape doesn't happen
Snowmobiling	Good access

Landscape: Mancos-Cherry Creek

Primary Use Icon	Primary Note
All Uses	Opportunity for varied uses
All Uses	Continue Multiple use
All Uses	the area offers opportunities for all users to enjoy in all seasons road areas and solitude both
All Uses	God built the land for all.
All Uses	Grazing, ATV riding, hunting, camping, alludes
All Uses	The area is already heavily involved in multiple uses.
ATV	all area open to atvs on trails and rock
ATV	I love to ride the Alpine Loop in this area
Back Country Skiing	Pretty area for skiing.

Car Camping	The area around Twin Lakes is great for Tent/ RV camping- provides great enjoyment of wildlife and scenic views.
Forest Health	Multiple use that helps the vegetation.
Grazing	North of hwy grazing to preserve watershed and beauty.
Grazing	Continue grazing as it is vital to local economy.
Grazing	Continue use as allotted.
Grazing	Maintain all grazing at permitted levels.
Grazing	Would like to keep grazing a big part of this area -due to the fire hazard with the pine beetle killing trees! Perhaps logging those old trees and plant native grasses.
Grazing	Low impact way of harvesting
Grazing	traditional grazing
Grazing	Grazing has been on the forest and has been a major part of the history.
Hiking	lots of wilderness high peaks region important for backcountry foot traffic only
Hiking	Nature observation as well .
Hunting	Hunting/ Multiple use access
Multiple Uses	Varied terrain - many elevation changes
Pleasure Drive	Natural sightseeing is most popular in forest and on BLM lands to the south.

Snowmobiling	need to keep open
Snowmobiling	need to keep open for winter sports
Wildlife Habitat	This is excellent wildlife area which should be supported by increased grazing.

Landscape: Mayhan

Primary Use Icon	Primary Note
Forest Health	Protect old growth timber.
Grazing	Grazing is the traditional use.
Grazing	Excellent fop grazing.
Grazing	Grazing - Lots of ranches and farms adjacent to this land.
Multiple Uses	Due to the large amounts of private land can be used for multiple uses without interfering with anyone.
Multiple Uses	Grazing on suitable, timber , oil & gas, recreation.
Multiple Uses	These smaller parcels lend themselves perfectly to neighborhood uses ; Eg, Hike , Bike , Horse
Oil & Gas	Oil and gas is a primary use.
Other	Wintering area for Elk and Deer , as well as oil & gas development, and private lands, isolated pieces.
Other	Views . Much of the land still in public domain is the ridge lines, which serve as the view scope for much of the county. These areas should be protected from ridgeline development or damage.

Other	Multiple uses - wildlife habitat, grazing, oil & Gas - San Juan Co. New Mexico working on this kind of cooperation usage by all groups to benefit of all.
Other	Don't know anything about this BLM or FS land
Wildlife Habitat	Wildlife winter range.
Wildlife Habitat	Winter range - migration corridors- important need to maintain winter closures reclaim with native sp. , weed control.
Wildlife Habitat	Patchy sections of BLM are very important for wildlife habitat. These areas should not be disposed of.
Wildlife Habitat	Need land for wildlife winter range.
Wildlife Habitat	Wildlife winter range.

Landscape: McPhee

Primary Use Icon	Primary Note
All Uses	Too many wilderness study areas. The wild lands project and affiliated foundations area alive and well.
All Uses	Lake Boundary is recreation - but adjacent land s are multiple use.
ATV	Keep roads open.
ATV	Keep existing roads open to ATV's
ATV	Trails already exist.
Fishing	McPhee Reservoir main use id fishing from boats.

Fishing	open up more marinas
Grazing	Limited would be the best thing.
Grazing	Needs grazed
Grazing	Grazing would keep fire danger down at all places
Grazing	We need to use this to protect landowners from too much game.
Motorcycle	Hunting in Sage hen area all uses , camping, hunting, rv, horseback
Motorized Summer	All rec uses . Need emphasis on recreation
Mountain Biking	Excellent Mountain Biking. Wildlife habitat and limited roads
Mountain Biking	One of the best trails in the county -actually the state
Multiple Uses	Is current use pattern
Multiple Uses	Camping, boating, fishing, (although water quality problems.)
Multiple Uses	This was used years ago for more things.
Multiple Uses	This area has easy access
Multiple Uses	Multi use around lake motorized .
Multiple Uses	Grazing will help the fuels reduction in heavily used recreation areas, and bring close to private development

Municipal Water Use	McPhee Reservoir near Dolores is takeout for Summit Ridge water district. - Sanitary faculties, paper handling, petroleum products is important.
Other	Continue Multi- use as much as possible
Power Boats	Boating
Wildlife Habitat	Winter range for wildlife
Wildlife Habitat	North end has great eagle and other wildlife habitat
Wildlife Habitat	East side of McPhee is vital wildlife habitat . It is the wrong place for a motorized trail out of town
Wildlife Habitat	Wildlife habitat and non motorized recreation
Wildlife Habitat	The east side of the reservoir is a critical habitat area especially for elk winter range.
Wildlife Habitat	Need to continue to close roads in this area to maintain wildlife habitat.
Wildlife Habitat	The area east of the reservoir is prime habitat

Landscape: Mesas

Primary Use Icon	Primary Note
All Uses	Leave it all open to all uses to all people
All Uses	Public lands should be open to all groups
All Uses	Use for all people & Motorized

All Uses	Public lands keep in multiple use adhere to Brunot Treaty
All Uses	Their should be more trails for ATV and a certain time that you can go up and pack out your game between non hunting hours
All Uses	I want all groups and interests to work together & share the landscape for all purposes
ATV	I hope to continue to use the willow Creek Divide area for ATViing and other traditional uses
ATV	ATV riding on trails only multi use Winter snowmobiling
ATV	I have seen most of this area on ATV. My time off is limited & my health fragile, so it is a way to be in nature.
ATV	Use basically all of the forest at one time or another. We clean Sage Hen , The monument, Boggy Draw, Williams Divide
ATV	I primarily like ATV's but hope all uses remain open as well as roads and trails.
ATV	Do not close any roads
Back Country Camping	Bear Creek Drainage -critical to water quality -outstanding backcountry potential non-motorized use
Back Country Skiing	Taylor Mesa Road provides an excellent Cross Country skiing opportunity
Backpacking	My uses of the landscape (in my backyard) include backpacking, hiking, cross country skiing, car camping, woodgathering, I am involved with the landscape often
Car Camping	The highest elevation places - Hillside drive top choice--then top of Taylor Mesa
Fishing	Declining fish habitat & population due to heavy metal contamination in Dolores River from abandoned mines and active gravel mining
Forest Health	Entire unit is in need of thinning and down materials removed

Forest Health	Concerned with overall forest health: impacts on various animal habitats are there things we can do to enhance habitat for me health of mammals, birds, amphibians, etc.
Forest Health	Preservation of the natural environment for quiet respectful human activity
Forest Health	Save old growth aspen do not harvest so often & save some areas where it is never out
Forest Health	When I say Forest Health I mean managing it for a habit tat / non human value based perspective. Manage for overall biodiversity
Grazing	Maintain all allotment at full numbers
Grazing	Maintain all grazing for fuel control in all allotment
Grazing	Because if we don't graze we will probably burn it down through manmade or natural disaster
Grazing	Maintain all grazing allotments at full numbers
Grazing	All areas other than private lands, main and first encumbrance by US forest Service was and still is the adjudication of grazing allotments
Grazing	Taylor Mesa is a good grazing area along with the rest of the Mesa's area
Grazing	I run cows on the tenderfoot area & this area is what i know the best Grazing is light in my area and important to me
Grazing	The grazing is very important part of the forest
Grazing	Maintain all allotment at full numbers
Grazing	Must be maintained for the health of the forest as well as the economy in the west
Grazing	The grazing needs to be kept for a fire hazard reducer. Our area is a agricultural area and grazing is a large and important factor.

Grazing	Multiple uses
Grazing	Protect historic values and uses
Grazing	Good Summer areas
Grazing	Very important to keep active helps all multiple uses
Hiking	Stoner Mesa Trail - too many ATV's on Upper trail- There should be none
Hiking	Being able to get into the backcountry w/some solitude
Hiking	This area has wonderful & varied hiking (and Fishing) opportunities I roam this area a lot.
Hunting	Grazing & logging where needed & hunting
Hunting	Nipple mountain area not accessible to hunters as it used to be
Hunting	Excellent Hunting area. Could share with grazing. This area probably should be multi- use
Hunting	Economic major use . Value this land for many other uses
Hunting	Many of us Hunt this entire area- which involves pre hunt hiking to scout, camping while in season & habitat to support calving and holding animals.
Motorcycle	Some of the best single track motorcycling trails remaining in the state of Colorado Trails are very well maintained by state ohv funds
Motorcycle	Except for restricted wilderness areas
Mountain Biking	I like to ride mountain bikes in this entire area

Mountain Biking	Beautiful area- epic trails fun!
Multiple Uses	We use this area for all rec. including motorized vehicles
Multiple Uses	We would be unable to make a living without NFS graze Multiple use is preferred
Multiple Uses	This is a good area for multiple use
Multiple Uses	Areas without roads should be left un-roaded
Multiple Uses	My 87 year old Uncle would like to keep going into the forest
Multiple Uses	Use for all people etc.
Multiple Uses	Watershed for domestic and irrigation water
Multiple Uses	Take care of area and use it
Non Motorized	Bear Creek is a pristine Drainage not suitable for motorized traffic
Non Motorized	Headwaters of Bear Creek , Little Bear & Rough Canyon are unique ,pristine areas that have big game, fish, etc. and provide backpacking etc. Need to keep motorized vehicles off of everything except Hillside road.
Non Motorized	Bear Creek is a pristine drainage not suitable for Motorized traffic Some uses are seasonal and use plans need to be year around
Non Motorized	Stop off road atv travel. constrain to a few trails/ roads. Very destructive to the environment & wildlife, very much including noise
Non Motorized	I say this because there has been a proliferation of motorized use. There should be absolutely no "open areas". The whole area needs a comprehensive travel management plan.
River Running	The entire Dolores river It was really a toss up with hiking but someone has to speak up for river running

River Running	Wildlife habitat, horseback & packing, hiking, solitude forest, & range health rivers & streams
Snow Shoeing	Flats be low Dead Man's Favorite sport also mix with hiking which would be above Williams
Timber Harvest	Keep open for multiple uses
Timber Harvest	Local economy is dependant on timber forest health is also an issue for me
Timber Harvest	Timber harvest is important to maintain forest health and not waste resources. Downed timber and too thick tree stands are detrimental and create fire danger
Traditional Uses	Maximize the traditional use on as many acres as possible
Wildlife Habitat	Great Upper & mid level habitat
Wildlife Habitat	Stoner Mesa Priest Gulch Few Trails, low human populations
Wildlife Habitat	Stoner Mesa Priest Gulch
Wildlife Habitat	Birding Backcountry areas

Landscape: Missionary

Primary Use Icon	Primary Note
All Uses	Hiking , Hunting , Backpacking, 4 wheeling: All of these and more uses on this section
ATV	Existing system and "decommissioned roads are excellent opportunities to accommodate this growing sport without disturbing more land
Backpacking	mountain view great not too long a hike access to entrance to overview of lovely mountains pristine wilderness

Car Camping	Along roads at undeveloped sites
Car Camping	Have used this area / road for car camping/day hiking- appear to be popular use as I am never the only one up there
Car Camping	Henderson lake a great place to drive to and car camp then hike, fish etc.
Forest Health	I'm interested in seeing the forest restore itself naturally, with as little "management" as possible. Wildlife habitat, riparian health
Forest Restoration	due to extensive burning in P zone. stabilization of soils not logging on steep slopes no grazing on steep slopes essential
Forest Restoration	North Half forest restoration , south half forest health
Forest Restoration	following the burn the key is restoration of soils etc vegetation
Forest Restoration	Primarily this area is receiving forest restoration as a result of the Missionary Ridge fire. To my understanding the area has been closed to grazing & was closed for safety for hiking and other recreational uses
Forest Restoration	following the fire, this is what is being done, and should be done
Forest Restoration	Landscape wide
Grazing	Grazing has occurred for a century on this landscape interrupted by fire
Grazing	Multiple use , grazing , timber harvest
Grazing	Grazing permits good for 4 months of the year longer than other uses (hunting) etc.
Grazing	At this time it appears that grazing predominates. However this watershed needs more emphasis on watershed & managed recreation use because of accessibility to the urban
Grazing	Primary use Landscape wide

Grazing	Grazing for watershed management
Grazing	grazing is the are old way to manage forest grasses and overgrowth/fire flues
Grazing	The country is quite remote, 1 main road, 1 lake, no camping. Excellent for grazing, traditional summer pasture- pre forest service
Grazing	Between 8,000 ft & 10,500 ft elevation
Grazing	Bikes on allotments, gates need to be closed
Grazing	Grazing is essential to the agricultural community of SW Colorado & is necessary to keep ag viable in the private lands, of SW Colorado & helps keep open space in the private lands of our area. This keeps family farm & ranches viable.
Grazing	Represents several agricultural operations, people have been running cattle here for 100 years & getting along with all recreational activities
Grazing	I think that grazing is real important for ranches and to keep the forest healthy
Grazing	Primary area for grazing
Grazing	control grazing to help with prevention fire control
Hiking	Hiking Lime mesa
Hiking	During my summer on missionary ridge I saw more hikers than cattle , bikers or even wildlife
Hiking	Hiking from the south end of Missionary to Henderson Lake high priority
Hiking	Trail head to beautiful alpine
Hiking	I am not familiar with this area but some friends like the hiking areas.

Hiking	This area used by members of Seniors Outdoors
Hiking	Great vistas, good trails, wildlife viewing
Hiking	Haflin creek trail- popular hiking trail
Hiking	Haflin Creek is used by many Locals, as well as the handful of other trails adjacent to Haflin and to the north (Spud Henderson, Steven)
Hiking	The missionary ridge area provides nice hiking opportunities due to the established roads an proximity to Durango
Hiking	Maintain roads so can access great areas by car and then hike i.e. Mountain View west w/o backpacking
Horse Packing	Excellent opportunity for hikers and horseback. Disperse horse impact from packing outfits when accessing wilderness area. It is also an easy pack for camps in this area.
Horse Packing	horseback trips into area hunting too
Horse Packing	Where trails are established but not shared by motorized vehicles
Horse Packing	We take clients into this area for hunting and pack trips
Hunting	Hunting and Grazing
Hunting	Need road access for various areas for hunter access and rescue or fire protection-keep roads open - maintain the extreme end
Motorcycle	See San Juan Trail Riders proposed trail system
Mountain Biking	haflin creek along Stevens for hiking
Mountain Biking	MTB single track & old roads: Missionary ridge trail, Haflin, Stevens, Wallace, Pretty, Red ridge road

Mountain Biking	Great riding close to town (Durango) never seem to run into too many hikers or horse back riders
Mountain Biking	I am very interested in seeing the Haflin and Stevens Creek area on the way to recovery by further planting & seeding specifically for Mountain Biking
Mountain Biking	Lots of roads and trails for motorized use
Multiple Uses	The many uses of this area are mainly livestock grazing and motorized recreation with some camping, hiking, and hunting.
Multiple Uses	This is obviously a Multiple Use Landscape important considerations are the wilderness interface & Animas Valley Watershed
Multiple Uses	Log It
Multiple Uses	Landscape wide maintain current opportunities
Multiple Uses	heavily used area many different uses and groups
Multiple Uses	MR area is very divers and well suited to a wide range of uses. Easy access,heavily roaded, important wildlife habitat to meet a diverse array of uses with out degradatation is important
Multiple Uses	variety of uses all season lots of different activities
Multiple Uses	Due to existing roads and uses - Multiple use should be maintained , although roadless areas should be maintained as roadless& non-motorized
Multiple Uses	Missionary Ridge is already multiple use - doesn't make sense to change it particularly after the fire. I am concerned about revegeation efforts - exotic vegetation eradication - those areas should be restricted
Municipal Water Use	Protect all existing and future water diversion points pursuant to Colorado law, & private property rights
Nature Observation	great beauty from H550
Nature Observation	nature should be just that natural no changes necessary

Non Motorized	Northern part of the landscape is largely roadless. Incorporation into the Weminuche Wilderness area would be desirable
Non Motorized	There is a motorized portion in this landscape but it is largely unloaded. The northern portion of the landscape should be considered for wilderness. The southern portion should be managed for non motorized.
Other	This is another prime area for a wide variety of uses but I wouldn't be in favor of drilling
Snowmobiling	Snow mobile are of missionary trail use
Wildlife Habitat	Fire has caused terrific wildlife habitat. Water quality should be monitored. Record elk harvest to confirm herd size
Wildlife Habitat	Minimize wildlife disturbance
Wildlife Habitat	Despite the fire damage, an ecosystem exists that supports a variety of wildlife necessary for balancing the landscape

Landscape: Mosca

Primary Use Icon	Primary Note
Hiking	Sand creek /Little Sand Creek could be developed into excellent non-motorized recreational trails.
Hiking	Back Country Hiking very little new user activity - high country
Horse Packing	Horse packing
Hunting	Multiple recreation use
Hunting	Area is a great hunting area. The landscape id rugged and good for hunting.
Hunting	Important hunting area_ earlier seasons before being closed by snow

Hunting	Hunting Elk
Motorized Summer	With a high concentration of roads & trails it is a natural area for motorized use.
Multiple Uses	Use It.
Other	Multi-use Recreation
Timber Harvest	Nice selective harvest
Timber Harvest	This is Historic use and future use.
Wildlife Habitat	Wildlife habitat & corridor between wilderness & Piedra Area.

Landscape: Pagosa

Primary Use Icon	Primary Note
All Uses	Commercial / social hub needs to be connected not sprawled.
Fishing	Excellent fishing opportunities, to the Pagos a Public that is relatively accessible.
Grazing	Lots of good grazing lands and fresh water.
Grazing	Pagosa & C&H good grazing.
Grazing	This area has historically been used for grazing & is a renewable resource.
Hiking	Back country no trails.

Hiking	Good place to climb and hike
Horse Packing	Horse packing trips & Camping Great fishing for Kids.
Horseback	Great Horse trail areas.
Horseback	Great trails & Scenery
Hunting	Excellent Elk , Deer & Bear hunting throughout the forest area.
Hunting	Grazing livestock over 100% in summer, and hunting in the fall. There is some hiking going on in Fawn Gulch a lot of summer rec.
Hunting	Hunting & livestock grazing.
Motorcycle	Historically the Sand Creek trail to Fawn Gulch has been used for trail bikes. I would like to see it opened back up.
Mountain Biking	Primitive roads & some trails (eg. Quien Sabe, 4 mile Stock Drive, Turkey Creek to Wilderness Boundary) are prime Mountain Bike routes & easily accessible from town.
Multiple Uses	Close to Pagosa Springs has lots of different uses.
Multiple Uses	Grazing, timber, hunting, recreation.
Multiple Uses	Multiple use urban interface.
Multiple Uses	This area is close to town and is used heavily for hiking, biking, snowmobiling, etc. The area is very accessible & thus very popular with many users.
Multiple Uses	Close to town. Important to everyone. Uses that damage resource for other users should be minimized.
Multiple Uses	All uses

Municipal Water Use	There are a few area other than what is indicated on the map that would be conducive to water supply.
Other	Excellent insect collecting areas along Mill Creek road and Mill Creek.
River Running	River access is used and hopefully will continue.
Wildlife Habitat	Critical winter range for elk & deer.
Wildlife Habitat	Lots of riparian. Forest health will improve habitat and lessen fir urban interface issues.

Landscape: Piedra

Primary Use Icon	Primary Note
BackPacking	Amazing opportunities for solitude.
Fishing	piedra river fishing use
Grazing	Keep grazing to help control the growth for fires
Hiking	Good hiking trails in the area in wilderness like experience.
Hiking	A very popular hiking and fishing area.
Hunting	Lots of good hunting area.
Hunting	Great hunting
Hunting	Important Deer & Elk hunting area. Access by foot and horseback.

Multiple Uses	multiple use grazing hunting fishing
Multiple Uses	Multiple recreation use.
Other	hot springs
Other	Low Impact Recreational use Horses,Rafts, Backpacking, Hunting.
Other	Should be managed as a wilderness area to preserve the diverse vegetative types & diverse wildlife populations

Landscape: Silverton

Primary Use Icon	Primary Note
All Uses	Many uses including mining, hiking, winter sports, hiking, scenic views.
All Uses	Economic Base is mostly Motorized, Jeep , ATV , Horse Back & Hunting.
All Uses	It is vital to the health of SJ county to maintain a multiple use approach to land management.
ATV	Tremendous off road and camping & ATV use.
Back Country Camping	Still high country peace available
Back Country Camping	Although I would agree with some multiple use I would keep it mostly backcountry use.
Back Country Skiing	All back country should be available for skiing; Some areas should be set aside for that use alone having to compete with motorized and not just "token" little Andrews Lake.
Back Country Skiing	Easy access to great skiing

Back Country Skiing	X-c and Back country skiing are the best here. Of course it is great alpine country in every season.
Forest Health	From a purely self interested point of view I enjoy the non motorized recreational activities that are low impact . Above all, however, the health of our community (the Forest) is of overriding importance.
Grazing	Over the total landscape where current allotments are active or may have potential.
Grazing	Need to keep livestock on the forest
Grazing	Grazing is , I believe, an important part of the ecosystem and environment / multiple uses should be allowed.
Hiking	Actually - hiking around Silverton on mountain forest and old mining regions.
Hiking	Generally there should be emphasized in this particular landscape, the encouragement of activities, like hiking, that have minimal impact.
Hiking	This area is primarily used for hiking - especially the Weminuche landscape along with areas around Molas/ Ice Lake.
Hiking	Really all outdoor enjoyment - Hiking , enjoying wildflowers, geology , streams etc. rather than motorized. Although need transportation to get to places.
Hiking	I believe that preservation is paramount for future health no motorized. We could take a clue from Europe.
Hiking	Hiking / Backpacking throughout the national forest section. Multiple use in the BLM area around Silverton.
Hiking	Access to trails
Hiking	Hiking is my primary use on our Public Lands but fishing , camping, backpacking, river running, Mnt. Biking, 4 wheeling, are also my interests.
Hiking	I do not exclude other uses that are compatible with hiking , but these lands are so beautiful and some motorized use detracts from non - motorized uses.
Hiking	Nature should be for nature. Taking machines in there is not natural .

Mining	Mining - Applies to areas of historic mining activity. - Significant Mineral Potential still exists.
Mountain climbing (Peak Bagging)	I enjoy hiking & climbing peaks in the entire area. I enjoy unimpeded views w/o development visible. Land acquisitions should continue for protection.
Multiple Uses	I would approve of timber cutting for beneficial thinning only. I would not endorse drilling.
Multiple Uses	Fragile economy depends upon multiple uses but balance is the key.
Multiple Uses	Maintain as multiple use manage use conflicts
Multiple Uses	Multiple uses but not in the same area.
Multiple Uses	In a county with more surface area than the state I was Born in , I think there is plenty of room for all interests with some logical planning.
Multiple Uses	Area allows a wide variety of uses.
Multiple Uses	Like to see some areas maintained access , no snowmobiles.
Multiple Uses	Many different uses are already established.
Multiple Uses	This area need a lot of regulations to keep everyone happy to avoid issues like cross country skiing. & snowmobiling.
Multiple Uses	Hiking, Cross country skiing, back country skiing, camping , backpacking.
Multiple Uses	Very diverse landscape supporting a wide variety of uses. Many past uses have left altered environments for future generations to contend with.
Multiple Uses	Summer use and winter use as well as jobs for Silverton.
Multiple Uses	We can learn to play together.

Multiple Uses	Mult; use very important. Mostly snowmobile.
Multiple Uses	As a San Juan County Commissioner I push for Multiple use everywhere in San Juan County.
Multiple Uses	The Silverton area in general has room for multiple uses/ with some areas being more restrictive than others.
Multiple Uses	Primarily used for Hiking, back country camping, biking.
Non Motorized	X-C back country skiing in the winter , primarily Molas Pass . Hiking in the summer in all areas. Cascade in the Wilderness and Colorado Trail and Cascade Creek etc.
Non Motorized	Non motorized
Other	Snowmobile & 4x4 use all year long.
Pleasure Drive	Wonderful landscapes for a Sunday afternoon drive.
Snowmobiling	This whole area is used by winter rec. uses and needs to remain as such.
Wildlife Habitat	The most common life forms are wildlife, therefore they (the wildlife) make up the primary use and the need for habitat.

Landscape: Slick Rock

Primary Use Icon	Primary Note
All Uses	All "normal " users
All Uses	Public lands are multiple use lands
All Uses	Motorized summer , 4 WD , ATV , Motorcycle, camping, grazing, hiking, horseback, backpacking, car camping, mining, oil & gas, hunting, fishing, rafting, wildlife study.

ATV	All four wheel use is well established.
BackPacking	We like backpacking in this slick rock country as a family.
Grazing	If grazing is allowed there will not be so much fuel for wildfires.
Grazing	Presently being used as grazing.
Grazing	Winter grazing
Grazing	Manage for bio- diversity . In this brittle environment - good monitoring & management are essential.
Grazing	Traditional use.
Grazing	Grazing use in Paramount to prevent wildfire.
Grazing	Traditional Grazing for winter.
Grazing	Lots of grazing
Hiking	Generally my family spend time hiking the canyon looking for native plants & wildlife.
Hunting	Seasonal but with high numbers of hunter days.
Multiple Uses	Silverton is known for its natural and manmade tourist attractions.
Multiple Uses	We need to use our resources, oil , gas, grazing, Free trade schemes and (Sage grouse) will bite us badly.
Multiple Uses	A lot of different activates are available here.

Oil & Gas	Numerous & increasing number of gas & oil leases preempts other beneficial uses.
River Running	Wilderness
Wildlife Habitat	Wildlife habitat is becoming increasingly fragmented. Need to manage for the health of the ecosystem not a single species.
Wildlife Habitat	Open Space & wildlife habitat.
Wildlife Habitat	If managed primarily for wildlife the land will be managed for the condition that I like to see it in when I mountain Bike , hike, camp hunt, fish, or drive in this landscape area.
Wildlife Habitat	Desert Bighorn on river year round . Primary winter range - deer - elk

Landscape: South San Juan

Primary Use Icon	Primary Note
Back Country Camping	Great Backpacking & Camping.
Back Country Camping	Over all
Hiking	Backpacking & camping & fishing.
Horse Packing	Llama Packing This is an excellent area for hiking, and day / overnight stock with Flathead Peak & Leche Creek trails.
Horse Packing	Good for everyone , whoever is concerned . A chance to enjoy themselves.
Hunting	Horseback hunting throughout the area
Hunting	Extremely high concentration of hunters (some of the highest in the state) First public land in CO. on west slope for people from the south.

Non Motorized	Should be kept as it is.
Other	Preserve and protect.
Traditional Uses	I use this in terms of natural settings, camping, backpacking, hiking, horse packing, etc.
Wildlife Habitat	Wild & Scenic area
Wildlife Habitat	Protect the wildlife habitat and migration routes.
Wildlife Habitat	Sheep (Bighorn) elk & deer - calving & summer range.
Wildlife Habitat	High country and low impact is great for wildlife reproduction.

Landscape: Square Top

Primary Use Icon	Primary Note
Fishing	Lakes
Grazing	Grazing & hunting . This area has alot of oak brush which is good Elk Habitat . Good access to higher country.
Grazing	Grazing - leaves the area open for horseback riding, hunting & all other uses.
Grazing	Good grazing.
Hiking	Great trails in the area to a variety of locations and lakes such as Buckles & Harris Lakes Opal Lake & wilderness area.
Horseback	Horseback and Llama trekking opportunities should be encouraged.

Mountain Biking	Kenney Flat
Multiple Uses	Lots of various uses.
Multiple Uses	Multiple uses for the whole area.
Multiple Uses	Grazing, timber , hunting, fishing.
Traditional Uses	Unfamiliar with the area I am saying traditional meaning existing.
Wildlife Habitat	Valle Seco area key Big Game Winter range.
Wildlife Habitat	Buckles lake area is excellent wildlife habitat.
Wildlife Habitat	Winter range , good corridor.
Wildlife Habitat	Very good hunting and habitat.
Wildlife Habitat	Central area excellent for wildlife.
Wildlife Habitat	Possible Grizzly & Black Bear hybrid- regulate access and hunting.

Landscape: Turkey

Primary Use Icon	Primary Note
ATV	One area where ATVs can be used
Fishing	Piedra River has special fishing regulations (2 Fish limit artificial flies and lures)

Fishing	Protect the Piedra flow / fishery
Forest Health	Health forest for interface
Forest Restoration	Forest (Ponderosa Pine) restoration in Turkey Springs
Grazing	Grazing should be kept along with multiple uses.
Grazing	Devil Creek area
Grazing	Grazing for benefit
Grazing	Grazing is essential to the survival of family farms & ranches in our communities. These farms and ranches provide open space in the fee land where we live
Hiking	Devil Creek trail is extremely beautiful
Horseback	Great Trails
Hunting	Variety of hunting opportunities
Motorcycle	There are miles and miles of single track trails that are or were used for trial bikes historically for 30+ years
Mountain Biking	My primary use is mountain biking but wonderful running & hiking. Elk herd quite often.
Mountain Biking	A very popular area for bicyclists, hikers, & cross country skiers. Network of trails , flatness of terrain, make the area ideal for bicyclists. Chris MNT. Devil mnt. and Middle mnt. trails are all popular & excellent
Multiple Uses	Many uses for this area including grazing and horse packing and rides also game hunting and camping.
Multiple Uses	This area in general is one of the most popular multiple use recreational areas on the forest. It is close to town , low altitude and is used by many people.

Multiple Uses	Hunting, grazing, logging area all high demands
Multiple Uses	I put multiple use as much as residential interface Hiking/ Recreation not.
Other	Pagosa hut & trail system . Multi rec use , motorized and non motorized uses
Other	Vegetation Education -- Excellent floral assemblages along New Jack Road
River Running	Wild and Scenic Rivers
Wildlife Habitat	This is a great potentially isolated area

Landscape: Upper Dolores

Primary Use Icon	Primary Note
All Uses	Upper dolores tradionally has been diverse
All Uses	this area is used for hunting, atv', snowmobiles
All Uses	this is a multi use area
All Uses	leave open to all
ATV	keep roads open keep any study areas at 5yr max
ATV	this is my backyard. we keep the trails clean and love the area
ATV	need more motorized access and less closed roads

ATV	willow divide area above rico and many forest roads in area
Back Country Camping	rec. hiking hunting fishing
Back Country Camping	it is a great place to get away from it all
Back Country Camping	my primary use of this landscape (my backyard) is back country camping skiing back packing fishing hiking
BackPacking	actually, primary use should be an activity because so much of the upper Dolores is high alpine tundra not suitable for high impact activity.... fragile place... very important water fountain for surrounding community
Dog Sledding	I do like the winter sports
Fishing	alpine feature and riparian habitat are both environmental and economic benefits to the town of Rico
Fishing	some fishing areas are difficult to reach
Fishing	again there are signs of water quality problems, emerging in both the Dolores and west fork which have impacted fishing quality of the river
Forest Health	I feel the alpine forest are managed only for recreational the forests are not very health and over crowded with stress.
Forest Health	manage forest for watershed protection aesthetics wildlife
Forest Health	unit is in need of thinning and dead material removal
Forest Restoration	surprised restore the habitat from brutal effects of grazing roudes and lets do some more weed control
Grazing	this steep country is best used by four legged animals and not vehicles do to erosion
Grazing	All Uses

Grazing	along with all and hunting
Grazing	adjudicated grazing allotments earliest disposition of lands by U.S. forest service
Grazing	maintain all allotments at full numbers
Grazing	maintain livestock numbers
Grazing	maintain all allotments at full numbers
Grazing	grazing properly keeps forests healthy and reduces fire hazards
Grazing	protect historic values and uses
Hiking	like in this over 20+ times a year
Hiking	great hiking a jewel
Hiking	keep our areas clean and scenic, preserve our wildlife areas
Hiking	lizard head wilderness especially but also area around rico
Hiking	in winter it would be x/c skiing
Hiking	maintain the lizard head wilderness for all non impact activities
Horse Packing	hiking wildlife viewing xc skiing solitude wildflower viewing
Horse Packing	maintain trail for back country horse packing

Horseback	wonderful trails, beautiful vegetation and riparian areas Scotch creek Fish Creek
Horseback	wilderness experience
Motorized Summer	open for motorized use on trails
Mountain Biking	also hike and 4wd use all areas
Mountain Biking	I really like the views and trails in the area. calico , wild oat burnet
Multiple Uses	keep all public lands for everyone to use
Multiple Uses	Room for all
Multiple Uses	Land ? to all uses
Multiple Uses	multiple uses for a segments of uses
Municipal Water Use	allow snow fall to watershed stop logging of conifers
Municipal Water Use	critical water source
Nature Observation	this high altitude regain needs to be protected from intruding impacts such as motorized vehicles over crowding etc
Non Motorized	year round non motorized recreation is primary use around rico
Non Motorized	motorized vehicles destroy peacefulness and pose a danger to hikers skiers and snow showers
Non Motorized	extensive wilderness and roadless areas provide good non motorized experiences

Other	upper waters for all irrigation and municipal use
Other	I would like the current trails and paths to be available for outdoor use, but to designate and eliminate trails for motorized excursions.
Other	additions should be made to the lizard head wilderness. there are several other roadless areas in this landscape that should be studied for suitability may this is an opportunity
Other	Ideal for multiple rec uses in selected areas eg. around Rico and south of the meadows
Other	biking x/c skiing hiking camping
Other	all public lands multiple uses
Pleasure Drive	always use w visitors fall especially
Pleasure Drive	scenic views are a major tourist attraction
Pleasure Drive	throughout easy afternoons
Snowmobiling	keep snowmobiling open in all areas
Snowmobiling	winter recreation snowmobile is treat in these areas
Snowmobiling	I love the snow there should be more parking area so we can get off the roads
Timber Harvest	thinning and keep the forest growing
Timber Harvest	timber harvest improves health and helps local economics and helps prevent forest fires
Traditional Uses	I would like to see the traditional uses continued!

Wildlife Habitat great places to view wildlife, photograph, birding

X-C Sking scotch creek

Landscape: Ute

Primary Use Icon	Primary Note
Fishing	River
Hiking	Hiking for pleasure & hunting
Hunting	Primary uses are hunting fishing and wildlife
Hunting	Hunting & Archaeology
Nature Observation	TDM
Nature Observation	Rare plant species growing there A baseline flora was developed by Hazel Schmoll
Nature Observation	Exploring the natural and cultural resources of CRAA Including educational values
Nature Observation	To be maintained as a Geological and Historical features
Oil & Gas	Chimney rock Arch area - seasonal
Other	Chimney Rock is an outstanding area for educating the public about the ancient cultures that occupied the site from 700AD to 1125 AD
Other	Archaeology National Conservation Area

Other	Archaeological
Other	Chimney Rock is an outstanding area for educating the public about the ancient cultures that occupied the site from 700AD to 1125 AD
Other	Chimney rock archaeological
Other	Archaeology
Other	Great cultural sites throughout the landscape
Other	Ruin sites/ historic structures
Other	Archaeology
Other	Ache Large area Manage not to degrade
Wildlife Habitat	Elk winter area
Wildlife Habitat	Big Game winter range , bald eagle winter , Peregrine falcon nest hunting areas
Wildlife Habitat	Winter range for deer/elk /turkey/ eagle/ Peregrine Falcon/ Mountain lion. (Spotted Owl) lots of diversity in wildlife use , especially in winter.
Wildlife Habitat	Winter range
Wildlife Habitat	Elk winterizing
Wildlife Habitat	The land need to be grazed by deer and elk.
Wildlife Habitat	Good mixture of pine forest , juniper, Pinion Pine & grasslands. Lots of deer & elk in area

Landscape: Weminuche

Primary Use Icon	Primary Note
Back Country Camping	Keep it wild
Back Country Camping	Hiking, backpacking, camping, fishing.
Back Country Camping	Camping & pack trips.
Back Country Camping	Pristine Wilderness allows for the best camping in the area.
Back Country Camping	Back country experience
Back Country Camping	Great Backpacking very remote
Back Country Camping	Grazing is in decline and camping- horse or hiking.
BackPacking	No motorized vehicles keep it for wilderness experience.
BackPacking	Excellent for backpacking. The upper lakes , solitude , access through trail heads.
BackPacking	This Wilderness is magical - It should be protected at all costs for people to seek solitude, and find peace.
Backpacking	BackPacking for solitude around Emerald Lake & all through the wilderness.
BackPacking	Wilderness travel & Camping
BackPacking	Amazing solitude.

Backpacking	My priority above all is to protect the weminuche wilderness and provide a good buffer to wildfires by managing the surrounding BLM & Forest. I think our wildest lands need to stay as wild as possible.
Backpacking	This is a heavily used area that may eventually need some sort of a permit system. As we are getting busier these precious resources can be overused and destroyed. (Highland Mary Lakes)
Backpacking	Entire area
Grazing	Primary food source.
Grazing	Historic cattle grazing (livestock) This industry adds to the health of the landscape.
Grazing	Maintain grazing opportunities to maintain forest health.
Hiking	East Vallecito and Emerald lake area . Steep but pristine views of variety of landscapes.
Hiking	Hiking through the weminuche area sightseeing, nature observation.
Hiking	Outstanding Back Country opportunities in the Wilderness Settings - All non motorized.
Hiking	Hiking and backcountry camping.
Horse Packing	Pack trips.
Horse Packing	Keep it wild , keep it open for private horse stock use regulate private enterprise.
Horse Packing	Keep the trails clear
Horse Packing	Horse packing, camping, beautiful scenery.
Horseback	This is absolutely a wonderful place to ride horses and use pack stock.

Hunting	Hunting & Horses & Camping
Hunting	Hunting takes place on all
Mountain climbing (Peak Bagging)	New to the area would like to utilize.
Mountain climbing (Peak Balking)	Extensive 14 teeners easy access by train.
Nature Observation	So much nature to observe.
Nature Observation	Can be obtained thru recreational activities hiking, photography , back packing.
Non Motorized	Hiking , Horse , etc. No motors or mechanized (bikes) keep as natural as possible.
Non Motorized	Non motorized
Other	What are the water rights associated w/ Emerald Lake. Can they be developed? Repair existing former dam .
Other	Emerald Lakes should not be developed for increased water storage.
Other	Emerald Lakes should not be developed for increased water storage.
Other	Preserve & protect.
Other	It s a Wilderness, use it like one
Other	Maintain a wilderness state, solitude, limited public access.
Snowmobiling	The pollutants are already in the snow from the acid rain from all air already and snowmobiling being over the snow would not cause any damage.

Traditional Uses	This description is based on historical use in this area.
Wildlife Habitat	Doing Good
Wildlife Habitat	Non motorized no drilling
Wildlife Habitat	Wilderness is a good use, but there is enough Mountain Bike should be allowed.
Wildlife Habitat	Keep Wilderness characteristics including no hydropower plant or Dam on Emerald Lake.

Landscape: Wild Oats

Primary Use Icon	Primary Note
All Uses	Because of the proximity to a population area, it should be kept open for multiple use. Am very concerned about motorized use.
All Uses	No comment.
All Uses	Keep it multiple use
Backpacking	This applies to FS land in landscape
BackPacking	This is an area that is best accessed by foot. Hiking & Backpacking.
BackPacking	Keep area roadless free from ATVs and snowmobiles to allow quiet use for wildlife, backpackers, cross-country skiers.
Backpacking	Perfect - away from noise and people
Backpacking	Colorado trail trailhead camping

BackPacking	This area is very conducive to hiking and backpacking.
Grazing	Grazing is important on the less severe slopes
Grazing	Food, yes!
Grazing	Continue the range use to protect resources
Grazing	Grazing not appropriate in this heavily used - by purpose! - area.
Grazing	Grazing helps to keep vegetation down so fire can be more easily controlled
Grazing	Area grazing was the main use. Non use has affected that.
Grazing	Lots to eat, even weeds.
Grazing	Maintain undergrowth.
Grazing	Grazing is very important to the health of our county and as community, we should keep all areas open.
Grazing	Grazing causes minimal impact an allows other uses (hunting/ recreation) to thrive
Hiking	Hiking in Junct. Crk. use of Colorado Trail enjoyment of junction creek itself, some picnicking in campground over close to town easy access
Hiking	CO Trail
Hiking	This are is great as non motorized recreation (Mechanized too)
Hiking	Colorado trail

Hiking	Hiking with some hunting and grazing - no new roads.
Hiking	Excellent hiking & mnt biking.
Hiking	Outstanding hiking area
Hiking	Great hiking Colorado Trail
Hiking	Great hiking on Colorado Trail.
Hiking	Great hiking area.
Hiking	No comment.
Hiking	Essentially a roadless area. Most appropriate use is hiking, not biking, hunting (recreation).
Hiking	No comment.
Horse Packing	No comment.
Horseback	No comment.
Horseback	Good public access.
Hunting	Hunting primarily fall season
Mining	I have found increasing conflict between patented mining and hikers and photographers like myself who access the general area.
Mountain Biking	Mountain bike use on Colorado Trail along with Hopkins trail very important. Need extension to Durango instead of stopping at Junction Creek trailhead.

Mountain Biking	Keep Mountain Biking open along trail systems
Mountain Biking	Colorado Trail, Hoffiens Dry Fork Trail , Inel loops , Inel Hiking, running , horses
Mountain Biking	Ditto outstanding characteristics
Mountain Biking	Single track trails w/ outstanding scenery close to urban areas
Multiple Uses	This currently has lots of roads - mining, etc. May as well stay multiple-use.
Non Motorized	Generally agree with multiuse non-motorized.
Snowmobiling	No comment.
Snowmobiling	Kennebec Pass.
Snowmobiling	Kennebec Pass
Wildlife Habitat	No comment.
Wildlife Habitat	Need to maintain wildlife linkages and corridors for wildlife.
Wildlife Habitat	No comment.
Wildlife Habitat	Deserves winter range consideration for wildlife
Wildlife Habitat	I like to camp, backpack, bird-watch. It is important to recreate in a top-down predator-regulated ecosystem.

Landscape: Williams

Primary Use Icon	Primary Note
All Uses	Un familiar with area
ATV	With the old logging roads in the area there would be a lot opportunity for ATV specific trails.
Back Country Skiing	Snow Shoeing, Skiing, Dog Sledding up onto ridge
Backpacking	Backpacking Wilderness access
Fishing	This is my primary use among other recreations (hiking,camping)
Fishing	Lake fishing accessible by motor vehicle with camping facilities.
Fishing	Small streams good native fishing
Fishing	In stream trout fishing thorough the area but primarily in the Williams and Piedra
Forest Health	Weed proliferation Thistle & toad flax
Forest Restoration	Area where fire suppression has been managed for are unhealthy (PP) There is opportunity for restoration work. Only existing roads should be used for this.
Forest Restoration	Manage to protect useful species , control growth of oak ect. species.
Grazing	Grazing is an essential to the survival of family farms and ranches. These farms and ranches provide open space to the community & provide income to the farmer & ranchers
Grazing	Grazing helps the land if done correctly

Grazing	Grazing should continue as a sustainable, social, and economic primary use
Grazing	Not familiar with the grazing area
Hiking	Cimmarona is a great trail. Wonder if it connects with sanaw pass ?
Hiking	Opportunity to enjoy the outdoors via scenic hikes
Hiking	This is one of my favorite parts of the Forest to Spend time in
Hiking	Multiple recreation is the primary use
Hiking	Remote with opportunity to view Wildlife
Hiking	Includes some scrambling , snow shoeing, x-country skiing nature appreciation.
Hiking	Hiking trails because it is wilderness and wildlife habitat and old growth timber & natural rivers, streams lake also camping , solitude with that.
Hiking	Throughout this area its amazing
Horse Packing	Poison Park trail head is a very good entry point into the Weiminuche. The horse facilities for trailers and turn around make entry at this point centralized.
Horse Packing	Horseback access to Weminuche Wilderness is essential
Mountain Biking	Road system South and est. & SE, NE of sportsman's store excellent for mnt. biking very scenic & suitable for families
Multiple Uses	Excellent source for fishing& non motorized recreation hiking- trail heads / camping sites for people / horses- all non-motorized recreation including snow cross country skiers
Multiple Uses	Limited to wildlife habitat, hunting , fishing, with restrictions to atv use, oil & gas dev. etc.

Multiple Uses	Camping Hiking, mountain biking, grazing, hunting, fishing, - non motorized boating, timber harvest, wildlife habitat, x country skiing.
Multiple Uses	I support multiple use forests
Multiple Uses	Recreation especially around Williams Reservoir , Timber- Trail Ridge, Along Plum taw road, water, reservoir & creeks, Range especially private land along piedra road
Multiple Uses	Seasonal Multiple use
Multiple Uses	While maintaining healthy ecosystems(forest wildlife etc.) this area should provide multiple use opportunities. However these should be guided foremost by ecological health and sustainability.
Nature Observation	The Piedra Trail, Williams Creek Trail & Poison Park Trails are outstanding wildflower trails. The open meadows in the landscape are beautiful when in bloom. The Piedra trail is good birding and geologically important
Nature Observation	At Williams Reservoir
Other	Multiple uses, with the exception of ATV, drilling for oil & gas
Other	High water Quality & good riparian habitat need to be protected from damage due to surface disturbances & stream crossing
River Running	Piedra river (Piedra rd) to hwy 160) preserve this natural waterway
Wildlife Habitat	Lake & Riparian offers variety of habitats & species that use it. Diverse landscape

Landscape: Wolf Creek

Primary Use Icon	Primary Note
Back Country Skiing	Long day of solitude in winter. Great place for fishing * day trips.
Back Country Skiing	Great x country / back country skiing.

Back Country Skiing	Unique access for many uses , mine is on skis.
Back Country Skiing	Also this area for mushrooming and hunting.
Backpacking	Very Scenic backpacking, hiking, camping, x-country skiing.
Backpacking	Great Backpacking , Camping, & horseback riding.
Fishing	Fishing on streams
Grazing	Recreation and grazing are both important. A lot of talk about going , but people don't go- but they want more rules to keep others out. Who will keep the rules and manage all of this.
Grazing	Most trails are to steep or sloped for 4 wheelers.
Hiking	Continental Divide Trail is a great hiking trail with excellent wildflowers & scenic views of the Mountains.
Hiking	CD Trail, Treasure Mountain trail , prime trails for hiking& Mnt. Biking. (non motorized use) _ Also windy pass & Quartz Creek trails , Crater Lake Trail. Etc.
Horseback	Good trails for horseback
Horseback	Windy Pass Trail and up towards Black Diamond Mine. Beautiful Country , nice trails and cow trails.
Hunting	Wildlife abundance
Hunting	Wide variety of hunting opportunities for all hunting seasons except the last rifle.
Multiple Uses	Area offers good recreational opportunities year round. Good access.
Multiple Uses	Need to keep all uses - logging grazing recreational etc.

Multiple Uses	I would hope that the multiple use concept would be enhanced as this area has good access and lots of historical use for many user groups.
Multiple Uses	Grazing, timber harvest, hunting, recreation.
Mushrooming	At least 8 different edible and collectible varieties
Nature Observation	This valley section supports the only known population of <i>Drafa smithii</i> on the western side of the continental divide.
River Running	East Fork of the mighty San Juan River - Running from headwaters to Pagosa Springs. Extremely valuable wild river areas, no dams or reservoirs.
Snowmobiling	Unique early & late season opportunity . Easy access and good opportunity for snow during droughts.
X-C Skiing	Not groomed Winter use.
