Dear Reader:

The San Juan Public Lands Center has completed a Supplement to the Draft Environmental Impact Statement (Draft EIS) for the San Juan Plan Revision for public review and comment. This letter and the attached Frequently Asked Questions (FAQ) provides pertinent information about the Supplement, explaining why the Supplement was created, what it includes and does not include, and how it relates to the overall plan revision process. The FAQs provide an overview of the organization of the document, as well as identifying specific items in the Supplement that we think are important to highlight for your consideration and comment.

The Notice of Availability (NOA) for the Supplement to the Draft EIS was published in the Federal Register on August 26, 2011. The published NOA initiated the 90-day public review and comment period. Comments must be postmarked by November 25, 2011 to be considered in the Final EIS and Proposed LMP. Comments may be made via:
