

River Protection Workgroup for the Animas River

Thursday, July 26th, 2012

KENDALL MOUNTAIN RECREATION AREA

Time: 5:30 to 8:30 p.m.

Meeting Outcomes

- 1) To review and discuss the list of ideas for protections generated to date and determine where further information is needed (focus this time is on Cement Creek (2 segments) and if time, the Upper Animas.
- 2) To follow up on some items from the June meeting

Meeting Agenda

- I) Introductions
- II) Meeting Opening: review of outcomes and ground rules and RPW process principles and the charge to the Working Group
- III) Follow up from last time:
 - More on ways the fins and swifts are managed through current USFS management (an information request)
 - Update on getting a hydrograph and additional water rights information; update on some communications that have occurred
 - Determine if there is interest in a field trip
- IV) Review list of protections brainstormed for Cement Creek (2 segments) and if time, the Upper Animas
- V) Review and approval of June minutes
- VI) A preview of next steps and what the Working Group will be doing this fall
- VII) Other
- VIII) Next meeting
